Hunger Adds To Horrors Of The Devastated Cities--Men Fight For Handsfull Of Flour.

TWO HUNDRED THOUSAND DEAD

This Is A Conservative Estimate Of The Total Number Who Met Death In The Awful Disaster To Southern Italy.

[SPECIAL TO THE GAZETTE.]

Rome, Dec. 31.—Details of the awful suffering to which the survivors of the ruined cities of southern Italy and Sicily are subjected to are but meagre and the death list increases hour by hour. The officials are doing everything possible to relieve the suffering and bring the survivors to places of safety where they can be cared for.

Nothing Left

Reports from Messina and Reggio show that nothing is left of these two cities but ruins. Thousands of bodies will never be recovered, having been consumed in the fires which raged after the city was laid in ruins by the quake. Stragglers from these two cities tell awful tales of suffering, death and devastation.

King and Queen at Scene

Both the King and Queen are at the scene of the destruction and by their own personal endeavors are doing everything possible for the sufferers. Troops are bringing order out of chaos and aiding the refugees to reach places of safety and assist them to food and shelter.

Many Foreigners

Inquiries that pour into the headquarters of the government relative to foreigners supposed to be in the ruined cities leads to the belief that many English and American tourists have been killed in the disaster and that a full and complete list will never be known.

Hastening Home

Reports from all parts of Europe and America show that thousands of Italians at present away from home are trying to reach Italy to search for friends and relatives. This will greatly add to the confusion of the scenes that beggar description.

Looted Dead and Dying

If Messina the prisons released and the prisoners released looted the dead and dying, cutting rings from fingers of injured and murdering women and children. As soon as the troops arrived these criminals were shot down when caught and a semblance of order restored.

Every Reserve

Every reserve power of the government is centered on rushing supplies to the stricken and as fast as trains can be loaded they are hastened to the scene. Vessels have been pressed into service and are used to transport food and workers and bring back refugees.

Panic-Stricken

The increasing list of the dead in the various communities, the death which has occurred to many of the rescuers seeking to aid the suffering, has caused the people to become almost panic-stricken. Reggio is gone and Messina is fast becoming a barren waste.

Many Guests

Paris, Dec. 31.—A dispatch from Rome says that 90 guests, including American, English and French travelers, were staying at the Hotel Trinacria in Messina when the city was destroyed, and they all perished. There were only two survivors of the guests who were quartered in the Hotel De France.

Entire Regiment

Reggio, Dec. 31.—There is reason to believe an entire regiment of infantry was drowned by a tidal wave at Palmi. Three hundred soldiers' bodies have already been recovered. As a precautionary measure against an outbreak of pestilence the bodies of persons killed in the earthquake are being buried.

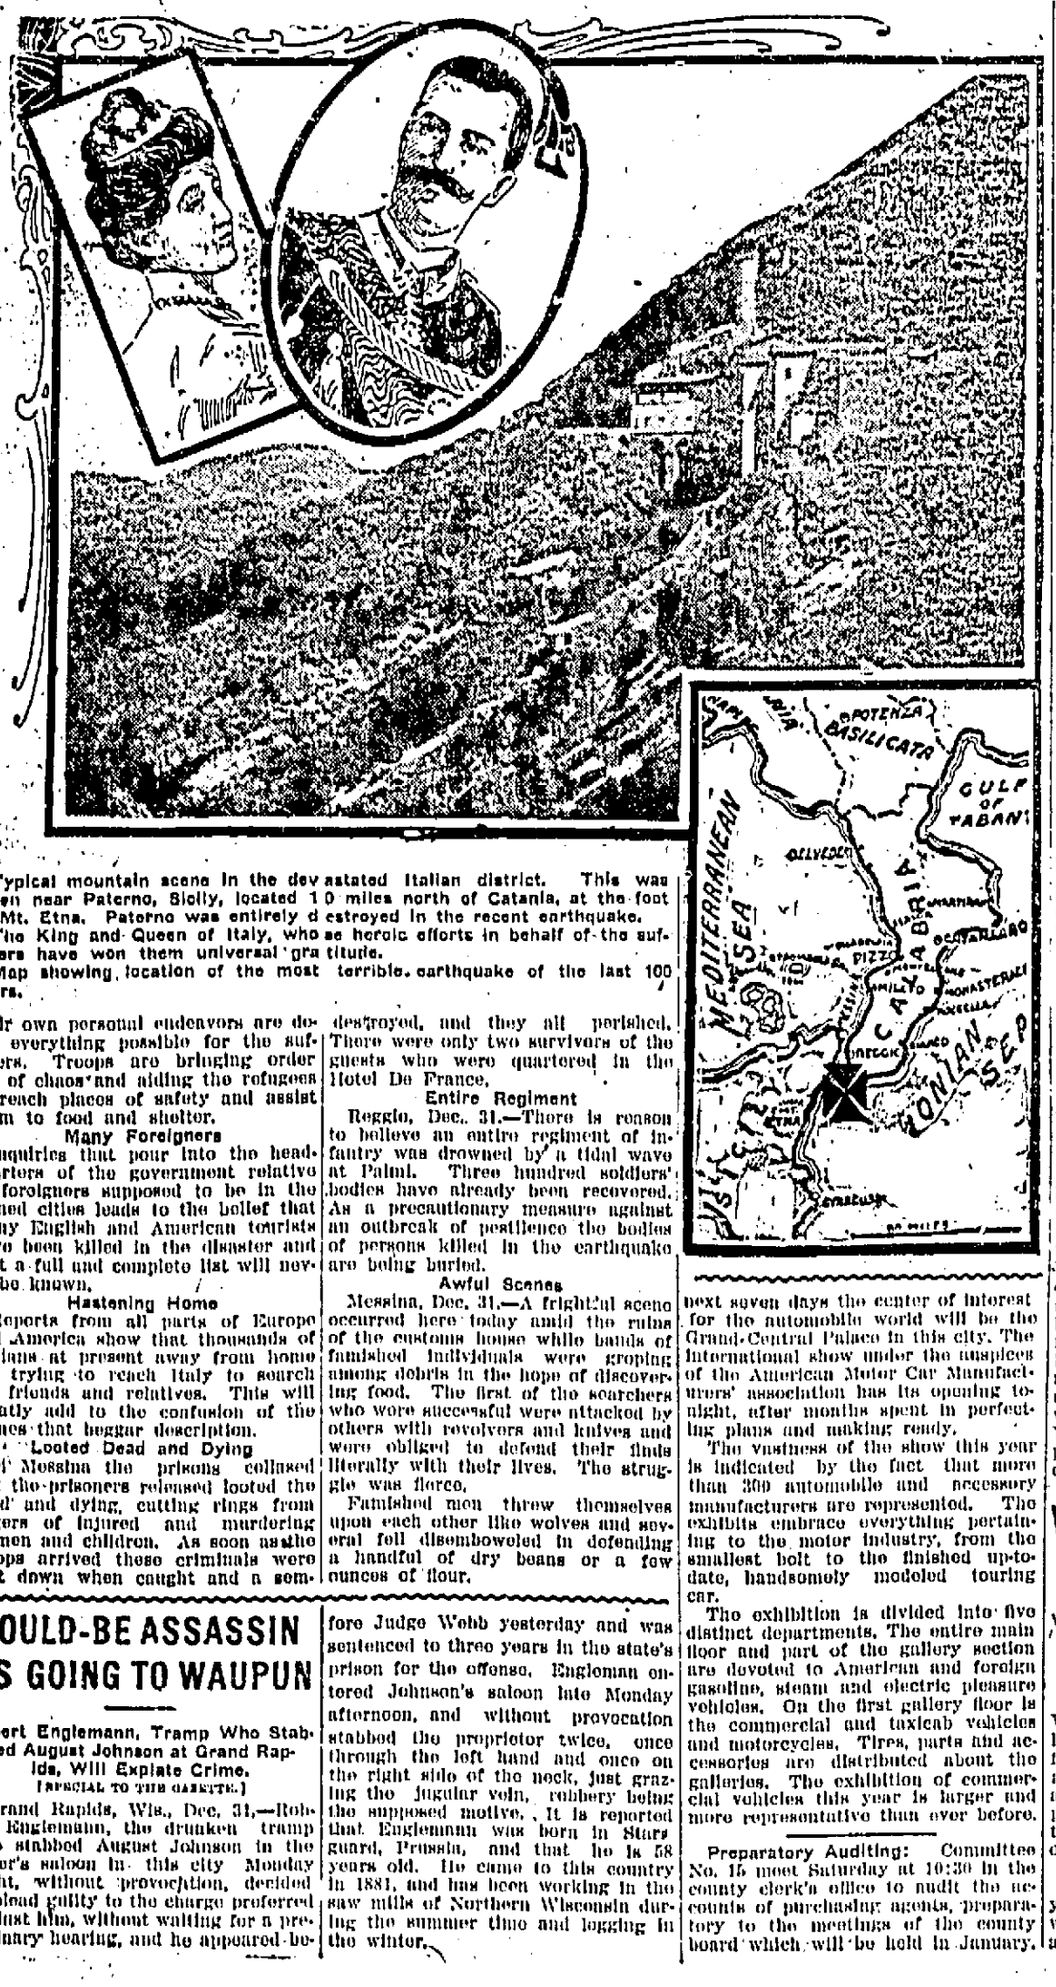

Awful Scenes

Messina, Dec. 31.—A frightful scene occurred here today amid the ruins of the customs house while bands of famished individuals were groping among debris in the hope of discovering food. The first of the searchers who were successful were attacked by others with revolvers and knives and were obliged to defend their finds literally with their lives. The struggle was fierce.

Famished men threw themselves upon each other like wolves and several fell disemboweled in defending a handful of dry beans or a few ounces of flour.

THE FINISH.

Typical mountain scene in the devastated Italian district. This was taken near Paterno, Sicily, located 10 miles north of Catania, at the foot of Mt. Etna. Paterno was entirely destroyed in the recent earthquake.

The King and Queen of Italy, whose heroic efforts in behalf of the sufferers have won them universal gratitude.

WOULD-BE ASSASSIN IS GOING TO WAUPUN

Robert Englemann, Tramp Who Stabbed August Johnson at Grand Rapids, Will Expiate Crime.

[SPECIAL TO THE GAZETTE.]

Grand Rapids, Wis., Dec. 31.—Robert Englemann, the drunken tramp who stabbed August Johnson in the latter's saloon in this city Monday night, without provocation, decided to plead guilty to the charge preferred against him, without waiting for a preliminary hearing, and he appeared before Judge Webb yesterday and was sentenced to three years in the state's prison for the offense. Englemann entered Johnson's saloon late Monday afternoon, and without provocation stabbed the proprietor twice, once through the left hand and once on the right side of the neck, just grazing the jugular vein, robbery being the supposed motive. It is reported that Englemann was born in Starsguard, Prussia, and that he is 58 years old. He came to this country in 1881, and has been working in the saw mills of Northern Wisconsin during the summer time and logging in the winter.

INTERNATIONAL AUTO SHOW OPENS TONIGHT

More Than Three Hundred Different Exhibitors Are Represented on the Floor.

[SPECIAL TO THE GAZETTE.]

New York, Dec. 31.—During the next seven days the center of interest for the automobile world will be the Grand Central Palace in this city. The International show under the auspices of the American Motor Car Manufacturers' association has its opening tonight, after months spent in perfecting plans and making ready.

The vastness of the show this year is indicated by the fact that more than 300 automobile and accessory manufacturers are represented. The exhibits embrace everything pertaining to the motor industry, from the smallest bolt to the finished up-to-date, handsomely modeled touring car.

The exhibition is divided into five distinct departments. The entire main floor and part of the gallery section are devoted to American and foreign gasoline, steam and electric pleasure vehicles. On the first gallery floor is the commercial and taxicab vehicles and motorcycles. Tires, parts and accessories are distributed about the galleries. The exhibition of commercial vehicles this year is larger and more representative than ever before.

Preparatory Auditing: Committee No. 15 meet Saturday at 10:30 in the county clerk's office to audit the accounts of purchasing agents, preparatory to the meetings of the county board which will be held in January.

NEW YEAR RECEPTION AT THE WHITE HOUSE

Last of its Kind of Roosevelt Administration Will Occur Tomorrow.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., Dec. 31.—The social aides at the White House have completed final arrangements for the President's New Year's reception tomorrow, which will be the last of the Roosevelt administration. The general arrangements for the function are practically identical with those of previous years.

The doors will be thrown open at 11 o'clock in the morning, but it is safe to say that it will be well along in the afternoon, before the "plain people" have an opportunity to pay their respects to the chief executive of the nation. First to be received will be the Vice President, the members of the Cabinet and the Diplomatic Corps. Then in the order named will come the judiciary, members of Congress, commissioners and judicial officers of the District of Columbia, officers of the army, navy and marine corps, minor officials of the Federal and District governments, and the members of the local historical, patriotic and other societies.

Fat Envelope in Wall Street.

New York, Dec. 31.—In accordance with long-established custom, many of the leading banks, trust companies and stock exchange houses closed the year today with the distribution of rewards to faithful employes. Substantial bonuses were given to officers, clerks and other employes, in many cases amounting to 5 per cent of their yearly salaries. The payment of bonuses of this kind was customary prior to last year, when on account of the panic clerks and other employes in many banks and brokerage houses got reductions rather than increases in salaries.

This year the conditions were much improved. The brokerage business in particular has been prosperous since election. In practically all of the large houses today there were substantial bonuses instead of a repetition of last year's "Irish dividends" to employes.

MANY ENTRIES FOR YONKERS MARATHON

Hatch and Corey From the West to Compete In New York Tomorrow.

[SPECIAL TO THE GAZETTE.]

New York, Dec. 31.—A record-breaking field of more than 100 runners will participate in the big Marathon run at the Empire City track tomorrow, under the auspices of the Yonkers A. A. Included among the entries are many star performers, such as James F. Crowley, winner of last year's race; Sammy Mellor, who finished second in that event, Sydney Hatch of Chicago, and Corey the 100-mile champion. The race will be 26 miles and 385 yards in length and will start in the public square in Yonkers and run two miles to the Empire City track, where the remainder of the run will take place.

WOMAN FIRE-BUG SENT TO PRISON

Vinnie Podawiltz Found Guilty of Setting Fire to Sister's Barn at Grand Rapids.

[SPECIAL TO THE GAZETTE.]

Grand Rapids, Wis., Dec. 31.—Miss Vinnie Podawiltz, who was arrested last fall on the charge of having set fire to her sister's barn in this city, appeared before Judge Webb this afternoon, pleaded guilty to the charge preferred against her, and was sentenced to one year in the state's prison.

TWO STATES ADDED TO COLUMN OF DRYS

Mississippi and North Carolina Laws Go Into Effect With the New Year.

[SPECIAL TO THE GAZETTE.]

Jackson, Miss., Dec. 31.—With the striking of the midnight hour tonight Mississippi joins the ranks of those states of the Union in which the sale of alcoholic beverages is prohibited by law. With the dawn of the new year state-wide prohibition becomes effective in accordance with the law passed by the Legislature last spring. Saloons and hotel bars in this city and in Natchez, Vicksburg, Meridian and other cities and towns throughout the state will cease to do business. The anti-liquor leagues and similar organizations are already taking steps to secure a strict enforcement of the new law. At the same time the mail order liquor houses in Louisiana and other neighboring states are preparing for an expected increase in their trade. Even this source of supply for the thirsty, however, may be cut off as a result of a legislation prohibiting interstate shipments.

North Carolina Also.

Raleigh, N. C., Dec. 31.—The prohibition law in North Carolina comes into effect tomorrow. The saloons everywhere will put up their shutters and go out of business, but it is anticipated that much trouble will be encountered with "blind tigers," especially in communities where the majority sentiment is known to be anti-prohibition.

No Drinks on Southern Road.

Atlanta, Ga., Dec. 31.—Beginning tomorrow the Southern Railway will discontinue the sale of liquor in its dining cars over the whole system. This step was decided upon by the management in view of the fact that a large part of the territory through which the road runs has declared for prohibition.

LA CROSSE'S NORMAL READY NEXT JUNE

Building Operations Are Nearing Completion—Chicago and Indiana Men Favorites For Presidency.

[SPECIAL TO THE GAZETTE.]

La Crosse, Wis., Dec. 31.—That the La Crosse normal school will be completed by June 15 is the promise made to Regent Thomas Morris by the contractors, the Sterling Engineering and Construction company of Milwaukee. Work has been going ahead at a lively rate and it is now expected that the building will be completed far ahead of the contract time.

The field for president of the new school is understood to have narrowed down to two men, one of them from Chicago and the other from Indiana. This seems to eliminate Prof. Jack, former inspector of high schools, who was supposed to be a favorite for the position. The selection will be made soon in order to permit the new president to gather his staff around him before the beginning of the next school year in September.

SHEBOYGAN HAS BIG FIRE LOSSES IN '08

Losses In That City During Year Total Thirteen Thousand Dollars, Is Report of Chief.

[SPECIAL TO THE GAZETTE.]

Sheboygan, Wis., Dec. 31.—Sheboygan suffered a loss by fire of just $13,196 during the past year, according to the annual report of Fire Chief Bedford. This is a remarkable decrease from the total figures of 1907 when the loss was $63,639. There were 98 fire calls.

Increase In Arrests.

According to the annual report today given out by Chief of Police August Schieck, this year saw an increase of 10 per cent in the amount of arrests. Drunk and disorderly and assault and battery charges head the list.

TO CELEBRATE BIRTHDAY OF ITALIAN TRAGEDIAN

Tommaso Salvini, Oldest Living Great Tragedian, Eighty Years Old Tomorrow.

[SPECIAL TO THE GAZETTE.]

Rome, Dec. 31.—That the Italians love their great men and never lose an opportunity of doing them honor is illustrated by the extensive preparations that have been made for the celebration tomorrow of the eightieth birthday of Tommaso Salvini, Italy's greatest tragedian. In Rome and in other chief cities of the kingdom the anniversary will be observed with special performances in the theatres and with exercises under the auspices of literary and dramatic societies. Probably the most notable of the celebrations will be that held in Florence, where the great tragedian has made his home during the greater part of his life.

Tommaso Salvini is the oldest living great tragedian and his name is a household word all over the world. It is not so long ago that he retired from the stage. He paid his farewell visit to the United States in 1890 and his Othello aroused all of the enthusiasm that it had created on the occasion of his American tour in 1886, when Edwin Booth interpreted Iago. Salvini is very fond of recalling his experiences in America. One day, it is told, he was present at a sitting of Congress in Washington. When the members became aware of his presence they gave him a perfect ovation, springing to their feet in their enthusiasm, and the presiding officer addressed him words of welcome.

Salvini was born at Milan, Jan. 1, 1829, and began to study for the stage at an early age. He made his debut when he was 14 under the direction of the celebrated actor, Gustavo Modena, and rose rapidly in his profession. Even then he was a fiery, impassioned actor, and the call to arms for Italian independence in 1849 found a ready response in the emotional young man.

He served gallantly throughout the siege of Rome and became a friend of Mazzini, Garibaldi and other leaders. At the conclusion of the war he returned to the stage to achieve an almost endless series of triumphs. When he became a theatrical star of the first magnitude his repertory consisted of Shakespeare, Alfieri, Giacometti and many others. His principal Shakespearean character were Othello, Macbeth, King Lear and Coriolanus.

Early in the seventies the great tragedian determined to change the scene of his histrionic victories to the new world. He first visited Brazil and other countries of South America. His first tour of the United States was in 1873. He gave 126 performances in the larger cities and the financial profits were such as to enable the tragedian to become a landed proprietor in Italy upon his return here. His next visit to the United States was in 1881 and it also was successful.

Salvini was as great a favorite in England as in America. An interesting story is told of his first visit to London. As the theatres were running nightly, most of the actors were excluded from seeing him act, whereupon 450 of them sent him a petition setting forth this misfortune and begging him to have a performance for their benefit at an hour in which they could be present. Salvini consented with the greatest pleasure, and in the overflowing house which came to see him 500 of the best places were occupied by the English actors.

BURTON TO WEAR FORAKER'S TOGA

Taft And Foraker Have Withdrawn From Ohio Senatorial Race In the Interests of Party Harmony.

[BY ASSOCIATED PRESS.]

Columbus, Ohio, Dec. 31.—Definite announcement was made from his headquarters today that Charles P. Taft had withdrawn from the senatorial race "in the interest of party harmony." It was also stated that the Hamilton county delegation, the backbone of the Taft strength, would be delivered to Burton, thus securing the latter's election as successor to Senator Foraker.

Makes Statement.

Later, Charles P. Taft issued a statement saying that a prolonged contest for the senatorship would divide the republican party of Ohio; that he was unwilling to be responsible for such a division and therefore withdraws as a candidate, yielding "my personal ambition for the accomplishment of more important things."

Foraker Also Out.

Senator Foraker at noon issued a statement formally withdrawing from the senatorial fight. This leaves the field practically clear for Burton.

COMES ON A PICTURE QUITE UNEXPECTEDLY

Chicago Detective Discovers Old Family Portrait While Searching Room of Suspect.

[SPECIAL TO THE GAZETTE.]

La Crosse, Wis., Dec. 31.—Stolen fifteen years ago in the burglary of a home in this city, a portrait of James Pflueger, who was a prominent man here in the early days, and who died in 1892, was recovered by chance by a Chicago detective while searching the room of a suspect there. Detective Sergeant Baldwin of Chicago, who was searching the room, was not looking for the picture but recognized it as that of his wife's uncle which had been missing since shortly after the latter's death. The portrait is not especially valuable except as a family relic and why it was carried way by the burglars has never been explained.

UNCLE SAM STARTS AID TO ITALIANS

State Department Is Considering Plan to Send Them.

[BY ASSOCIATED PRESS.]

Washington, D. C., Dec. 31.—The authorities are considering the matter of dispatching a fleet of sixteen American battleships, now in the Red sea, to southern Italy to assist in alleviating the distress.

Sends Rations.

New York, Dec. 31.—The United States naval supply ship Celtic will sail from this port today with 1,500,000 navy rations for the Italian earthquake sufferers.

Congress to Act.

Washington, Dec. 31.—It was learned today from an authoritative source that the President will on Monday next send to congress a message urging a liberal appropriation for the relief of the earthquake sufferers in Italy.

GIVEN YEAR IN WAUPUN FOR PASSING BAD CHECK

[SPECIAL TO THE GAZETTE.]

La Crosse, Wis., Dec. 31.—Herman Schultz, accused of passing a forged check, W. E. Barber, a laundryman, being the victim, pleaded guilty yesterday and was sentenced to the state penitentiary for one year. The young man was out on parole from the state reformatory when he got into trouble.

G. W. MOORE IS GIVEN A YEAR'S SENTENCE

Beloit Harness and Blanket Thief Must Serve One Year in the State Prison.

[SPECIAL TO THE GAZETTE.]

Beloit, Wis., Dec. 31.—G. W. Moore, the harness and blanket thief, who was cleverly arrested by Chief Qualman a week ago, pleaded guilty to the charge of grand larceny this morning in municipal court, Judge Rosa then sentenced him to one year's imprisonment in the state's prison at Waupun. Moore had no defense to offer as he was caught with the goods on him. Chief Qualman's friends are gratified that he should have secured conviction in this, his first important arrest.

While Moore was being taken to the police station last Thursday, he tore up a letter which when put together again had references to New Bedford, Mass. A letter was sent to the police authorities in that place in the hope of developing a clue but Moore was unknown nto them. He is, however, known in Fort Atkinson, Madison, Rockford and Janesville, but only in Janesville is there a record of any thefts he committed.

FARMER THREATENED TO MURDER FAMILY

Man's Insane Threat to Kill Wife and Eight Children Causes Terrible Ruction Near Chippewa Falls.

[SPECIAL TO THE GAZETTE.]

Chippewa Falls, Wis., Dec. 31.—Fearing that her father, a farmer living near Bloomer, would carry out threats to kill his wife and eight children, Irene Vogel struck him on the head with a flatiron, but the blow only stunned him and he grabbed two guns and an axe and drove the family out into the cold last night. One of the children hurried to one of the neighbors and telephoned to different farmers and soon about twenty were assembled. They tried to storm the residence, but Vogel told them he would kill the first person that crossed the threshold. After three hours' work Marshal Payne succeeded in entering the house and felled Vogel to the floor and soon had him handcuffed. Vogel is in jail here charged with attempting to commit murder.

ATTEMPT ON LIFE OF FRENCH PREMIER

Disaffected Corsican Named Benedetti Fired Several Revolver Shots at Windows of His Office.

[BY ASSOCIATED PRESS.]

Paris, Dec. 31.—A disaffected Corsican named Benedetti fired several shots from a revolver this evening in the direction of the windows of Premier Clemenceau's office. No one was hurt. The Corsican has been arrested.

HAIN'S MOTHER WAS ON STAND TODAY

Testifies That Her Son Showed Early Symptoms of Weakness And Insanity.

[BY ASSOCIATED PRESS.]

Flushing, N. Y., Dec. 13.—In a voice broken by frequent sobs, Mrs. Peter C. Hains, the mother of Thornton J. Hains, told in court today of the boyhood of Captain Peter C. Hains, Jr., in which she said he showed signs of physical weakness. The aged mother expressed the belief that her son, Peter, was irrational. General Peter C. Hains, U. S. A., retired, also testified, saying that his father had died from insanity.

ON SITE OF OLD CANDLE FACTORY

J. M. BOSTWICK & SONS HAVE ERECTED A HANDSOME NEW BUILDING.

GAZETTE'S NEW QUARTERS

And Parker Pen Co. Establishment Will Be Located Therein Shortly after the First of the Year.

The old landmark which stood at the corner of Milwaukee and Bluff streets so many years that only the older residents remember its erection was really the first workshop of the man who purchased the property and built upon the site the handsome three-story structure which now graces that place of land.

J. M. Bostwick, when in a reminiscent mood, will tell you of the candle factory of his father located in the old building in the early days and of his experience in marketing the product of the plant in his house-to-house calls.

Mr. Bostwick's ambition to erect there the handsomest building in the city has been realized and while it is not yet completed the illustration gives a good idea of its appearance. The structure was built especially by Mr. Bostwick for the use of the Parker Pen company, who will occupy the two upper floors, and the Gazette Printing company.

The first floor will be used for offices, editorial rooms and job printing department, while in the basement the presses, linotypes, news rooms, and mailing and newsboys' rooms will be quartered. When completed the Gazette will have as modern and complete a newspaper and printing plant as there is in the country.

Each floor is 50x100 feet, giving 10,000 square feet of floor space, half again as much room as in the present quarters.

INTERURBAN PLANS BEING PERFECTED

Chief Engineer Ellis at Edgerton Reports Matters Are Progressing Nicely.

Interurban communication at least as far as Stoughton by January one, nineteen ten, is the promise of Chief Engineer Ellis of the Cincinnati Construction company to the people of Janesville. Mr. Ellis states that his company has perfected its plans for the road and that he is now waiting to secure the necessary franchise in Edgerton before making formal application for a franchise in Janesville. The road has been surveyed as far as the western end of Lake Waubesa and construction can begin as soon as weather permits after the franchises in Edgerton and Janesville are granted and the state railway commission issues its permit to build. H. H. Zigler, of Columbus, president of the company, is expected to reach Madison this coming week when steps will be taken towards arrangements with Mr. Montgomery, owner of the Madison line, for entrance into the city over his tracks. A franchise has already been secured in Stoughton and the application is now pending in Edgerton.

Everybody welcome to these services. Come, believing and praying that precious souls will be saved.

FINANCIAL AID FOR ITALIAN SUFFERERS

Gazette Heads List for Relief of Sufferers From Recent Awful Devastation With Twenty-five Dollars.

Seldom has the world been called upon to witness such a widespread disaster as now being hourly reported from Italy. The death list will reach nearly two hundred thousand and the loss to property will be impossible to estimate.

Civilized countries the world over are hastening aid to the suffering people who have been deprived of everything—money, homes, clothes, food, and in many cases are mourning the loss of dear ones, dead among the ruins of their native cities.

While no appeal has been directly made to the American people by any organized charitable organization, the Gazette believes that something should be done to alleviate the suffering and a fund raised here in Janesville to help swell the totals of other cities. With this in view the Gazette will head the list with $25 and will be glad to receive further contributions.

Arrangements will be made so that the funds may be deposited at the different banks or at the Gazette office. As soon as a proper means of forwarding money to the Italian sufferers is found this fund will be sent and it is hoped will aid in alleviating the sufferings of the unfortunates.

ATTEMPT WAS MADE TO WRECK A TRAIN

Tie Placed on Track in Front of Illinois Central Train Near Monroe Tuesday Night.

[SPECIAL TO THE GAZETTE.]

Monroe, Wis., Dec. 31.—An attempt to wreck the northbound Illinois Central passenger train six miles north of this city Tuesday night failed when the cowcatcher threw off a loose railroad tie that had been placed on the track. The train was going forty miles an hour down a steep grade when it hit the timber, which was hurled to one side of the track. Had the tie been fastened to the track the train would doubtless have been derailed and several persons might have been killed or injured. There is no clew as to who put the tie on the track. The railroad company is investigating the matter.

Alfred Klossner, who broke into C. L. Chambers' grocery store Sunday noon and evaded the officers by escaping through the roof, was committed to the boys' industrial school at Waukesha by Judge J. M. Becker. He was taken to Waukesha by Sheriff M. C. Durst this morning.

Beulah Olive Burns, 5 year old daughter of Mr. and Mrs. John Burns of this city, died Tuesday night of meningitis after an illness of only two days. The child was taken ill Monday after the family returned from Juda where they visited with Mr. Burns' parents. The girl became unconscious Tuesday morning and remained in a comatose condition until the time of death. The funeral was held from the home in this city at 11 o'clock this morning and at two o'clock from the Baptist church at Juda, interment being made in the Juda cemetery. The Rev. J. H. Berkey of this city officiated.

Mrs. William F. Grenzow, who lived a mile and a half south of Juda, died at her home yesterday from the effects of a cancer from which she had suffered for five years. She was fifty-two years of age, being the daughter of William Matzke. She was married in 1877 since which time she resided on a farm south of Juda. She is survived by a husband and seven children, four sons and three daughters. The funeral will be held Saturday.

Miss Edith Carlson and Thurl Arnemeier, both of Darlington, were married here by the Rev. S. A. Ross at the parsonage of the Methodist church yesterday. The couple left for the east on a wedding trip.

Miss Flossie B. Heyers, of Madison, and Ernest Spaeni, of this city, were married Tuesday at Freeport, Ill., by County Judge Clarity. The bride and groom have returned to Monroe and will make their home here.

MAGEE'S HALL WAS SCENE OF FESTIVITY

Seventy Young Evansville Couples Made Merry at a Leap Year Dance Tuesday Night.

Evansville, Dec. 30.—A merry crowd of young people enjoyed a leap year party in Magee's opera house last evening. Invitations had been issued to seventy couples and nearly all responded. The Kneff and Hatch orchestra of Janesville furnished the music. Near midnight the curtain was lifted and behold, the stage had been converted into a pretty dining room, red Christmas bells being used profusely to decorate it. The spread was served by Dewey.

Miss Margaret Walker is expected home tomorrow from Grand Junction, Colo., where she has been for several months visiting her sister, Mrs. Chas. Taylor.

LeRoy Kling arrived from Chicago Monday evening to spend a few days with relatives and friends.

Mrs. J. S. Richards, who has been sick for the past two weeks, is some better today.

The card party given in the city hall last evening by several ladies of St. Paul's Society, was well patronized. Mrs. J. Tierney received first prize and William Lee second.

The Misses Ethel Pond and Ethel Roberts of Janesville were here to attend the leap year party last evening.

Will Brown went to Chicago this morning to visit his sister, Mrs. Graves, who is quite ill.

Miss Alice Eastman of Beloit has been the guest of Miss Maude Gillies for several days.

Ernest Dennison returned to Milwaukee today after a week's visit to his parents.

Miss Nora Comstock of Oregon was a local visitor yesterday.

Mrs. Arthur Devine is visiting relatives in Brooklyn.

MINSTREL SHOW WAS THOROUGHLY ENJOYED

United Commercial Travelers and Their Guests Had Big Time Last Evening.

At the East Side Odd Fellows' hall last evening the members of the United Commercial Travelers and their guests enjoyed their annual banquet and entertainment, which was one of the best of its kind ever given in the city.

At six thirty those present sat down to a sumptuous supper after which an old-time black face minstrel show was given. As interlocutor E. C. Burdick was warmly applauded, as was Al Smith, George Williamson, Frank Nicholson and Mr. Barber, the members of the star quartet.

Al Smith's little ballad entitled "Peeping Through the Knot-hole in Father's Wooden Leg," was heartily applauded and the clever jokes of the end men, which had plenty of local color, kept the audience laughing continually.

Miss Gladys Hedilles rendered a vocal solo and Miss Welch gave a most pleasing piano selection. P. S. Peterson, attired in a Norwegian costume, with his old country sketch was warmly received, as was O. O. Drothing in a monologue entitled Hans Olsson.

At the close of the program the floor was cleared and dancing occupied the remainder of the evening.

DINED ON DOG-LIVER THAT CHRISTMAS DAY

While Comrade Wanamaker Had Corn-Pone And Whiskey at Cahabo, Alex. Campbell Fared Well at Macon.

Charles Wanamaker's little reminiscence of a Christmas dinner in a Southern prison forty-four years ago, which was published in these columns last Saturday, reminded Pension Agent Alex. B. Campbell of Albion of a parallel experience, and the following letter has been received from him:

Albion, Wis., Dec. 29, 1908.

Editor Janesville Gazette,
Janesville, Wis.

Dear Sir: My attention has been called to the Gazette of the 26th inst., wherein you mention Charley H. Wanamaker's Christmas dinner of 1864 at Cahaba, Alabama.

If it's in order I would like to say that I boarded at Castle Morgan (Cahaba prison) a while with Charley. On November 21, 1864, some of us were taken out for so-called "exchange." On the 24th we discovered it was only an exchange of one prison for another, finding ourselves in the stockade at Macon, Georgia.

The day before Christmas a "Johnny Reb" came in the prison with three sets of livers, hearts, lungs, tongues, wind-pipes and all. Two were on the small order and the third one was larger. I, feeling quite flush in my pocket, having about $14 in Confederate scrip, purchased one of the smaller of these liver-sets for $1.75, all of which added greatly to our Christmas dinner the following day. One of our neighboring messes purchased the other small liver-set and we congratulated each other upon having had a good square meal once more.

Towards evening one of the prisoners came to me inquiring if I had bought one of those small livers the day before. I told him I did. As he turned to go away I asked him why he wanted to know, and he then said that he had just been out in the wood squad and over there in the hollow back of the prison he saw the remnants of the carcasses of a hog, sheep and a dog, with the livers cut out.

Thus, while Comrade Wanamaker was eating a Christmas dinner of corn-pone at Cahaba, I can't say but that I was eating a Christmas dinner of dog-liver and all that goes with it at Macon, Ga.

A year ago last October 1, by chance, met Comrade Wanamaker as one of the party who went from Madison to Andersonville, Georgia, and it's needless to say that we improved a good share of the time on that trip reviewing experiences of our prison days.

Respectfully,
ALEX. B. CAMPBELL,
Co. A., 13th Wis. Inf. Vol.

NO PAPER WILL BE ISSUED ON FRIDAY

Gazette Will Observe New Year's Day by Not Issuing Any Regular Edition.

Tomorrow, being the first day of "The Year of Our Lord Nineteen Hundred and Nine," the Gazette Printing Company will issue no edition and this evening wishes its patrons and friends a very Happy New Year. This evening's issue will be found to contain an inexhaustible source of information as to happenings during the past year; a chronological table of the year's happenings, taking up the year day by day; a list of the births and deaths which have occurred during the past year. An account of the fires for the past twelve months and a summary of the buildings erected or improved during the same period will be found. Cuts of many of the notable happenings during the year as well as of new buildings constructed will be discovered and other very interesting data. It is a resume of the year's work in one complete issue which has taken much time to compile and arrange in its proper order.

CHARGES WERE PREFERRED AT THE ANNUAL MEETING

Physicians Have High Words at Meeting of Rock County Medical Society.

At the meeting of the Rock County Medical Society held in Beloit this week charges were preferred against Drs. Nye and Helm of Beloit by Dr. Worthington of the same place. Dr. Worthington had applied for admission to the society but his application was held up on the ground that his advertising was unprofessional. In retaliation Dr. Worthington made charges against Drs. Nye and Helm on the same basis. Hot words were many at the meeting and for a time it seemed as though a physical encounter was imminent. The charges will be investigated by the board of censors.

The officers elected at the meeting were: President, Dr. Pember; vice-president, Dr. Helm of Beloit; and secretary and treasurer, Dr. Spohn of Beloit. Dr. Wantle was chosen as a member of the board of censors.

GROWERS RECEIVED $240,000 FOR BEETS

42,000 Tons Were Cut at the Factory This Year—Four Carloads of Coal Burned Each Day.

"The taste of sweetness, whereof a little more than a little is by much too much" was in Rock county this year begot of 42,000 tons of sugar beets, which were ground up in the mills of the Rock County Sugar company.

Five hundred workers garnered these beets from the fields.

Garnered, the raw product was purchased by the Rock County Sugar company for $240,000.

It was variously put into the skillful hands of a corps of employes that are paid in the aggregate monthly the sum of $20,000 in wages.

It was "launched", and "thinned" by 500 men, the major share of whom were of European birth and 'continental experience in the craft.

To steam it, four carloads of coal were consumed per day. And every day the lime kiln was stoked with eight tons of coke.

On Saturday, the mills close for the season.

The mills of Rock county grind swiftly and they grind exceedingly well.

"I am going to retain six men to keep the buildings in repair until the opening of the 1909 season," says Manager M. R. Osburn. "When that season will commence, I can't tell yet, but it is a fact that beets are about as hardy and reliable a crop as is grown in Occident or Orient. However, the season just passing had its shortcomings. If we had had rain in July and August and a dry season in September, the crop would have been 50 per cent more bountiful."

A flat rate contract and a test contract have been presented to the growers for the coming season. The latter stipulates a price of $4.50 per ton for beets averaging 12 per cent of sugar, and at the rate of 33⅓ cents per ton for each additional one per cent of sugar contained in the beets. This contract means a raise in price over the test contract used in the 1908 season for all beets testing over 12 per cent. For instance, for 14 per cent beets it means a raise in price of 16 and two-thirds cents per ton; for 16 per cent beets it means a raise of 33 and one-third cents per ton; for 18 per cent beets, a raise of 50 cents per ton; for 20 per cent beets, a raise in the price of 66 and one-third cents per ton, etc.

The contract provides, as heretofore, that all beets shall be tested by a chemist appointed by the Agricultural Experiment Station, which is a state institution.

Sugar is consumed in the United States annually to the value of $140,000,000.

Women's Varying Tastes.

"What sort of a heroine does a woman like best in her books?" is a conundrum propounded by the London Book Monthly. In answer it has been said that a woman in a theater is always more interested in the hero of a play than in the heroine, while her chief sympathy when she is reading a book goes out to the heroine rather than to the hero.

COUNTY FAIR NEXT TO BE CONSIDERED

Temporary President C. S. Putnam Says It Will Be Taken Up in Earnest Shortly.

Among the unfinished business for the year nineteen ought eight can be classed the County fair project which came over into the present year as a relic of nineteen seven. However, President Charles Putnam of the temporary organization is certain that it will be a go this time. The work of interesting the farmers and business men in the project has been commenced and Mr. Putnam has assurances from several that the first part of the new year will see the project safely launched. Already a third of the necessary ten thousand dollars to make it a success has been subscribed and many who will be liberal subscribers have not yet been approached. While under the head of unfinished business it is a project that bids fair to be an accomplished fact by next New Year's.

OPPORTUNITIES FOR YOUNG WOMEN.

Nursing the Best Paid Occupation.

The Philadelphia School for Nurses, 2219 Chestnut street, Philadelphia, Pa., offers free scholarships in trained nursing to young women in every state in the Union. The scholarships cover the full two years' course, with room, board, uniforms, laundering, etc., included, and railroad fare paid to home town or district upon the completion of the course.

A home study course and a short resident course are also provided, which quickly open the door to opportunity and enable progressive students to render a noble service to humanity and at the same time acquire for themselves a substantial income from the best paid occupation now open to women; besides qualifying every student to deal with emergencies in the home that may mean the saving of a loved one's life.

Far-seeing philanthropists are adding to the resources of this school, with the view of ultimately extending those benefits to earnest, energetic young women in all country districts and in all the smaller towns and cities.

The institution is approved and endorsed by leading physicians and educators of the entire country. Some of the leading men of this state are its strong supporters and endorsers, as will be seen by the catalogue which will be sent to anyone who writes to the school for it.

OHIO CONTEST HOT

Wade Ellis Back from Visit to President-Elect.

VIGOROUS FIGHT ON BURTON

Intimation of "New Combination" Against C. P. Taft's Chief Competitor—Former Lieut. Gov. Harding Enters Race for the Toga.

Columbus, O., Dec. 31.—Renewed interest in the Ohio senatorial contest resulted yesterday from the return of Wade H. Ellis from Augusta, Ga. He went there to talk with the president-elect concerning C. P. Taft's candidacy, and as soon as he landed in Cleveland he entered on a long conference with Mr. Taft and his chief lieutenants.

Varying reports are afloat as to the result of Gen. Ellis' mission. President-elect Taft has on every available occasion announced that he would keep "hands off" the senatorial fight. He announced this prior to the entry of his brother into the race, and reiterated it with emphasis afterward.

New Anti-Burton Combine?

Whatever was the message which he returned by Mr. Ellis, or whatever the advice he gave, it found reflection only in the announcement at the conclusion of the conference that the fight against Congressman Theodore E. Burton of Cleveland, the leading candidate in opposition would be carried forward with increased vigor. It was also intimated that "a new combination against Mr. Burton" might be formed, but that this combination in no way involved the withdrawal of C. P. Taft from the race.

Harding a Serious Contestant.

Former Lieut. Gov. Warren G. Harding of Marion, who has entered the race, is unquestionably the most seriously considered of the "outside" candidates. Despite the fact that he had three conferences with Mr. Taft and one with Mr. Foraker before allowing his name to be used, Mr. Harding is declared to be in the race as an independent, with no understanding as to the delivery of votes to him at a specified time. The Burton folks say that Mr. Harding will get at least two votes that otherwise might have been cast for their candidate, but they will not admit that he is at all dangerous. Mr. Harding opened his headquarters in the Neil house today and it is said will make a vigorous campaign.

WOOL WAREHOUSES BURN.

Fierce Fire in Philadelphia Causes Loss of $200,000.

Philadelphia, Dec. 31.—Fire was discovered at 1:45 o'clock this morning in the wool warehouse of Fred Wolstenholm and Howard Boyer & Son, at 34 Letitia street, in the center of the downtown wholesale district. The flames made rapid progress and the building which is five stories high was soon a mass of flames.

At 2:30 the fire had spread to the wool houses of W. J. Johnson and Tattersfield & Co. and also to the Feldheimer Furniture Company's place on Second street in the rear of the wool-houses. By three o'clock the fire was under control. The loss was $200,000.

Arrested on Embezzlement Charge.

New Orleans, Dec. 31.—William H. Rudolph of New York was arrested upon his arrival here last night from San Francisco, at the instance of R. Lee Riggs, a banker of Patterson, La., who charges Rudolph with embezzling $15,500 three years ago. Riggs claimed that he let Rudolph have this sum simply to display it in connection with the operation of a betting stand at a local race track and that it was to be returned in an hour or two.

Twenty-Two Bodies Recovered.

Roanoke, Va., Dec. 31.—The latest news received at Norfolk & Western railway headquarters here from the Lick Branch coal mine disaster is to the effect that 22 dead bodies have been removed. Eighteen miners have crawled out unaided and five others have been brought out alive by rescuers. It is now believed that from 35 to 50 men remain in the mine, and there is no hope entertained that any of them are alive.

Orchard Lake Academy Closed.

Detroit, Mich., Dec. 31.—The Free Press quotes Col. Lawrence Hull, superintendent of the Michigan Military academy, located at Orchard Lake, in Oakland county, as saying that the school will not reopen after the Christmas holidays. The academy, which was at one time one of the leading military schools for boys in the United States, has been in financial difficulties.

Beheads His Aged Mother.

New York, Dec. 31.—While in a fit of insanity Arthur Trotter, 33 years old, late yesterday killed his aged mother, Mrs. Ann Trotter, by beheading her with an ax and a knife in her apartments on West Eighteenth street. Trotter jumped from a second-story window as the police broke in the door, but was found outside practically uninjured.

Big Order for Steel Rails.

Philadelphia, Dec. 31.—The Philadelphia & Reading Railroad Company yesterday placed with the Pennsylvania Steel Company an order for 15,000 tons of 90-pound steel rails for delivery in February. The order is for 5,000 tons more than last year.

DOES NOT APPROVE OF TAFT CLUBS IN SOUTH

President-Elect Vetoes Hammond's Scheme for Organizing "Independents" in Dixie Land.

Augusta, Ga., Dec. 31.—President-elect Taft has effectually put a quietus on the desire which was beginning to develop into activity to organize "Taft clubs" throughout the south. Mr. Taft doubts the wisdom of encouraging at this time political activity in any form.

In the view he is heartily seconded by Mr. Hitchcock, Republican national chairman.

This subject was under direct consideration yesterday at the initiative of John Hayes Hammond, who was willing at this time to undertake to extend the influence and organization of the National League of Republican clubs throughout the southern states, preferably under the style of "Taft clubs." Mr. Taft declared firmly against the "Taft club" proposition.

Mr. Taft received information from Charles Hopkins Clark of Hartford, regarding the Connecticut senatorial contest being waged between Senator Brandegee and Congressman Ebenezer Hill. Mr. Clark favors the latter for the place. Incidentally, he presented to Mr. Taft the claims of the Nutmeg state for cabinet recognition. Forty-five thousand Republican majority from Connecticut contributed to Taft's election, he said, and the state could furnish at least one competent member of the cabinet.

Judson Lyons, formerly registrar of the treasury, who is a resident of Augusta, Ga., obtained Mr. Taft's promise to make a visit and make an address at Haine Normal school, a local school for negro children. Mr. Taft will visit the school January 19.

THE OLD AND NEW

When the bells toll at midnight, the echo will say "Good-bye" to the old year, while the joyful tones, ringing out through the silent darkness, usher in the new.

The last day of an old year, and the first day of a new, are very much like every other day, and yet they record the death and birth of an epoch, which has long been marked as a milestone, in the flight of time.

To life in its early stages these wayside monuments seem a long way apart, and the wish is often expressed that time would quicken its pace, while in the rush of busy activities the days are too short for accomplishment, and the years slip away with monotonous regularity.

The last lap of the journey finds a company of time-worn travelers, resting by the roadside, discussing how rapidly the years go by, with perchance a regret that the end of the voyage is so rapidly approaching.

The year 1908 has been an eventful year in every life, for the work of development and decay is an active force which never loiters by the way, the close of the year finds us stronger or weaker in the physical, mental and moral realm.

To many it has been a year of steady growth, who, in spite of errors in judgment, which have resulted in mistakes, are able to look back through the year with the consciousness that they have lived to a purpose.

To many homes the year presents a kindly aspect, for the family circle has not been broken, and the volume closes without record of loss, and there is every occasion for gratitude.

The retrospect in other homes is not cheerful for the drama of life has many tragedies, from which no home is exempt, and the year just closing has presented its full quota.

But the year, with all its failures and successes, has passed into history, and the new year is ready to usher in. Someone said, a long time ago, that the road to perdition is lined with New Year resolutions. Be that as it may, the statement offers no argument against the oldtime custom of annual house-cleaning and reform.

Better by far to resolve and fail than to become a drifter subject to the winds and tides of life's tempestuous voyage. The man who is able to recognize the weak spots in his character, is in hopeful condition, for with this knowledge frequently comes a desire to strengthen the bulwarks, and these desires are the basis of all good resolutions.

It may seem a little thing to turn away from a bad habit, or to place under control a wayward temper, but these are the little things which make or mar the chances for destiny, and no time is better than the opening of a new year, to correct weaknesses.

The date is easy to remember, because it is a birthday anniversary, and it will be worth something to say, "I haven't drank a drop this year," or "I have been able to control my temper to such an extent that my wife has worried about my health."

There is a long list of errors in every life that need correcting and the first of January is a good time to give them attention.

The outlook for the new year is full of promise, and many of these promises will be fulfilled if individual responsibility is recognized and appreciated.

PROSPEROUS JANESVILLE

This issue of the Gazette contains a condensed history of the year's happenings, and is a panorama of scenes, so familiar, that they will be readily recalled.

It is gratifying to know that while many sections of the country have suffered from the results of the panic, that the Bower City escaped, and the year records substantial growth and prosperity.

The $750,000 invested in permanent improvements, represents many small investors, whose savings have gone into comfortable homes in all parts of the city.

Merchants have enjoyed a good trade throughout the year, and while some of the manufacturers have been running light, none of them have been obliged to suspend operations, and today the industries are fully employed.

The small enrollment at Oak Hill speaks well for the health of the city, and the number of births recorded indicates that friendly relations exist with the stork.

The suicide mania which threatened to become epidemic, early in the year, fortunately subsided, and the city saved from an era of free advertising. While the moral barometer has experienced no violent changes, in the absence of evidence it is safe to assume that the people have held their own during the year, in point of good behavior.

Someone, in offering criticism along this line not long ago, said that the trouble with the town was that it had too many people who were nearly honest, a criticism which might be considered a doubtful compliment, but the fact should not be overlooked that shrewdness is necessary to success in a community that trades with itself, year in and year out. It requires the same faculty possessed by the family of boys who all got rich trading horses among themselves.

About the only new blood which disturbs the business horizon, is represented in the children growing up, and most of them are chips of the old block, capable of sustaining their end of an argument.

The city is conservative and substantial, with rarely a business failure. It might have been larger had the people so desired, but the notion is quite prevalent that it is large enough, as a heavy increase in population would mean an increase in taxes, and that would mean a misfortune.

The only mushroom growth discoverable, is in the police department, where the one-man force of a decade ago has blossomed out into a full equipment double-headed and ready to tackle anything from a law-suit to an everyday drunk.

But Janesville is a good place to live, and people who go away, and come back broke, never tire of singing its praise, while the rest of us chant the same tune prompted by a pure exhuberance of happiness.

The city has been on the map for more than half a century, and nothing but an earthquake will remove it, or shake it up to any alarming extent. So long as contentment continues to be the essence of happiness the people will continue to be supremely happy, and that is the best of life after all. A happy and prosperous New Year to everybody.

COMMON HUMANITY

The great catastrophe which recently visited Italy, destroying towns and cities, has left in its wake more than the long list of victims, whose tragic death startled the world, for all over that once fair land are thousands of living sufferers who have lost not only home and friends, but who are today so destitute that starvation stares them in the face.

The heart of the world is touched with sympathy, and all over this, and every other land, donations are pouring in to aid in relieving the suffering.

The Red Cross society, of which President-elect Taft is the head, has taken charge of the movement, in this country, and money should be freely contributed to aid in the humane work.

That Janesville people may be represented the Gazette has headed a subscription and will take charge of any funds that may be donated, and see that they are promptly forwarded. Money and names may be left at any bank in the city, and the same will be published as received.

This is a work which should appeal to every heart. The amount given, however small, will accomplish its mission, for every penny will go to help a suffering people. In the face of a great calamity, all the world is kin, and the tragedy in Italy surpasses anything which has happened in modern times. Money should come in freely to aid in relieving the suffering.

HOUSEHOLD PETS AT POULTRY SHOW

Will Include Angora Cats, Parrots, And Valuable Dogs—200 Additional Entries Received.

Entries for about two hundred additional specimens were received today by Secretary Alexander Buchanan of the Southern Wisconsin Poultry and Pet Stock association's First Annual exhibition, which is to be held January 4 to 9, in the West Side roller rink.

Though not qualified to enter into the competitions which will be placarded, there will be flesh-and-blood ornaments featured at the exhibition such as pheasants, pea-fowls, cage birds, ferrets, rabbits, Angora cats, Belgian hares, parrots, monkeys and perhaps a few very valuable dogs. In fact, the pet stock that will be present will be as miscellaneous and precious an assemblage as Falstaff's army. And as for chickens—Oh! m-m-m-m-m—you Mistah Rufus Rastus Washington Jefferson Jawhusing—'nuff sed!

All birds will be marked with a number band around the leg before the opening of the show. This will be done so as to prevent injury of plumage.

In shipping the birds to this point, the exhibitors will coop all males separately—this to prevent fighting.

Y. M. C. A. TEAM AND ALL STARS COMPETE

Two Old Enemies Will Meet on Battleground Again Tomorow Evening at Y. M. C. A.

Tomorrow evening at the Y. M. C. A. the Wisconsin-Lawrence All-Stars basketball team and the Y. M. C. A. team will again contest for highest honors. At the last game, during the Thanksgiving vacation, the All-Stars were defeated, but with additional reinforcements and stronger playing they are quite confident of winning the game tomorrow night, as the margin of winning last time was very close. On the other hand, the regular team of the Y. M. C. A. have been practising continually and they are of the opinion that they will wallop it to the All-Stars worse than ever. At any rate it will be a close and exciting game from start to finish. The line-up of the two teams will be as follows:

All-Stars—Crissey, center; Langdon and Lee, guards; Cunningham, Richards and Strang, forwards.

Y. M. C. A.—Sennett, center; Beers, Booth and Palmer, guards; Mathews and Kline, forwards.

UNKNOWN MAN WAS KILLED BY TRAIN ON BRIDGE

He Was Thrown to the Ice Below—Had Appearance of a Prosperous Workman.

[SPECIAL TO THE GAZETTE.]

La Crosse, Wis., Dec. 31.—An unknown man was killed by a Southern Minnesota passenger train crossing the bridge from La Crosse to La Crescent last night. The man, who was about 40 years of age, was on the bridge when the train struck him, throwing him to the ice below where he was killed. The man gave the appearance of a prosperous workman but the body has not yet been identified.

SAN FRANCISCO TO MAKE MERRY FRIDAY

Prosperity of Past Year and Great Strides in Reconstruction Occasion for Rejoicing.

[SPECIAL TO THE GAZETTE.]

San Francisco, Cal., Dec. 31.—In the increased prosperity of the past twelve months and the marvellous era of reconstruction San Francisco believes she has cause for rejoicing and for giving a joyous welcome to the new year. Arrangements have been completed for an old-time celebration tonight to give vent to the feelings of the people. Market street which will be the center of the festivities, will be decorated and illuminated from end to end. Bands stationed at the principal street intersections will contribute to the spirit of festivity and merry-making with which the new year will be ushered in.

Gotham To Welcome the New Year.

New York, Dec. 31.—New York is prepared to give a gladsome welcome to the new year tonight. In years gone by the celebration consisted for the most part of a great gathering of the people about the foot of Wall street to hear the Trinity Church chimes. Nowadays things are different. It is estimated that more than half a million dollars will be expended tonight in celebrating the birth of 1909. This sum does not include the cost of the many masquerade balls, by which means the foreign element celebrates, nor the thousands which will be spent in the clubs. The estimate includes only the amount spent in theatres, restaurants, and for cabs, flowers and favors. Table reservations have broken all records, and in the two-score or more popular places along Fifth Avenue and Broadway it will be a case of "standing room only."

Dentistry Robbed
OF ITS TERRORS!

How do I do it?

By using the very latest and best methods yet found to be practical.

It has become almost a daily occurrence in my practice to have my patients remark before leaving the office:

"It was nothing compared to what I usually suffer when I go to a Dentist."

"You really hurt me the least of any Dentist I ever had work in my mouth."

I think I am the only Dentist in the city using this Painless method.

It has been out but a very short time.

I don't claim to be the discoverer but I think I am the only user as yet in Janesville and I am delighted with the fine results obtained.

No danger or ill results upon heart or respiration.

Come in and talk with me about it. I can do you good.

PURCHASED AN IMMENSE TRACT OF TIMBER LAND

LOCAL PEOPLE INTERESTED IN VANCOUVER, B. C. LOGGING COMPANY.

THE PENDLETON TIMBER CO.

New Company Organized With James Fifield as President Owns 325,000,000 Feet of Giant Trees.

Within the past few days the Pendleton Timber company with a capital stock of $200,000 has been organized in Janesville to purchase 325,000,000 feet of standing timber in British Columbia.

This is one of the largest lumber propositions ever organized in this vicinity and as the larger portion of the stock is owned by Janesville people, is a local enterprise. The tract purchased covers some 6,608 acres of land which can be utilized for farming purposes after the standing timber is cut off.

The officers elected at the organization are James Fifield, president; Frank R. Pendleton of Everett, Wash., vice president; and George E. King of Janesville, secretary and treasurer. The board of directors is composed of James Fifield, Frank R. Pendleton, George E. King, H. S. Gilkey of Minneapolis, W. S. Boutell of Minneapolis, J. F. Pember and Dr. F. B. Farnsworth of Janesville.

Among others who are interested in the company are Mr. and Mrs. Fred Capelle, Frank Fifield, Miss Catherine Fifield, and Mrs. Helen Sherer. The tract of land which will be logged by the new company is located in British Columbia and is one of the ideal tracts of standing timber in the northwest.

George E. King, the secretary and treasurer of the company, visited the country where the work is soon to commence last summer, and it was upon his report that the company was organized and the property taken over. By timber experts it is considered a wonderful forest.

This makes the second large western timber tract owned by Janesville people, the Forks Logging company having been organized here three years ago with a capital stock of $100,000 with 150,000,000 feet of standing timber to cut, a part of which has already been logged.

The same people interested in the new company are interested in the Forks company with the addition of James and Arthur Harris, who are stockholders in the Forks concern. This company has mills and is doing extensive operations at Monroe, Washington, near Everett.

BRIEF LOCAL NEWS.

Lewis Home Sold: J. A. Craig, of the Janesville Machine company, has purchased the house and lot formerly owned by S. H. Lewis at the corner of Court and Jackman streets. Mr. and Mrs. Lewis and their son Rollin will move to California some time in January and Mr. Craig will then take possession.

May Close Stores: A petition is now being circulated among local merchants to close their places of business every night in the week with the exception of Saturday night. Now that the holiday rush is over the merchants feel that the business on Wednesday nights does not make it worth while to keep their stores open.

Attention Eagles: There will be a special meeting of the Fraternal Order of Eagles tonight. Initiation of candidates.

Twilight Club: The next meeting of the Twilight club will be held on January 12th. The subject chosen for the evening is "The Foreign Relations of the United States." F. C. Burpee will be the leader.

Walked to Milton: Six young ladies went to Milton yesterday afternoon, making the trip on foot in a little less than two hours. They were Misses Bessie Burch, Anne De Forest, Ruelena Keller, Pearl Peters, Ruth Fifield and Lucy Fox.

Story Hour: There will be a story hour at the Library on Saturday morning at ten o'clock.

Watchnight Service at Carkill Memorial Methodist Episcopal church. The service will begin at eight o'clock tonight. The first part of the evening will be in the hands of the young people. Then will follow a social time with light refreshments. This will be followed by a rousing song service led by Mr. Henry Nott. A short address will be given by Rev. John Reynolds, district superintendent. Then there will be a consecration service with good wishes for the new year. You are cordially invited.

Nifty Device: Albert and Hugo Domnersing, notorious counterfeiters, who are serving time in the county jail here, have made what is called a "gambler's cross"—to be explicit, a cross formed purely of a pack of cards slitted together into agglomerated cubes, no glue or thread being used. The brothers presented it to Turnkey James today, who is affably interested in their ingenuity.

Goes to Waupun: Sheriff Fisher went to Waupun this noon with G. W. Moore, the convicted thief captured in Beloit and found guilty of stealing a fur robe and blanket from Ed Murdock's store in this city.

GROCERY STORES CLOSE NEW YEAR'S.

All the grocery stores of the city will be closed all day New Year's.

NOTICE.

The Board of Supervisors of Rock County having removed its funds to the City of Beloit the Banks of this city will on and after January first, 1909, charge exchange on all checks drawn by the County Treasurer on Beloit banks.

TAX NOTICE.

The tax roll of the town of Janesville for the year 1908 is now in my hands for collection.

Will be at Geo. W. Skelly's grocery store Saturday, Jan. 2nd, 1909, and every Saturday thereafter until January 30th, 1909.

Town Treasurer.

Dated this 31st day of December, 1908.

W. W. WATT GOING TO RENO, NEVADA

City Editor of Recorder and Alderman From Third Ward Will Engage in Business with W. F. Fifield.

William W. Watt, city editor of the Janesville Recorder, alderman from the Third ward, and one of the best known and most popular of Janesville's younger citizens, and his wife and daughter, will depart, in the course of about three weeks, for Reno, Nevada, which is to be their future home. Mr. Watt will be associated in the real estate and fire insurance business with Walter F. Fifield, who is well remembered here, succeeding Attorney Leo Davis who has resigned from the firm to take the office of circuit judge. The new organ-

WILLIAM W. WATT

ization will be known as Fifield & Watt. Reno is a city of 18,000 inhabitants and is located about 22 miles from the California state line. The announcement that Alderman and Mrs. Watt are to leave the Rower City will be received with genuine regret by their numerous friends, who will, nevertheless, wish and anticipate for them only happiness and prosperity in their new abode. Owing to the proximity of the spring election, it is not probable that Ald. Watt's successor in the city council will be chosen until next April.

CORNELIUS J. HAYES BADLY HURT TODAY

Portion of Brick Wall in Remodelling Work at Allie Razook's Fell, Striking Him in Face.

This morning at half past ten Contractor Cornelius Hayes was struck in the face and forehead by a portion of a brick wall falling and striking him. Mr. Hayes was superintending the work on the remodelling which is being done at Allie Razook's store on South Main street. He was standing under a brick arch looking up at it and a part of it fell and striking his face, broke his nose and split the eyebrow from the nose to the temple. The injured man was immediately taken to Dr. Gibson's office, where his wounds were dressed and about twenty stitches were put in to bind the cut together. He was later removed to his home on Chatham St.

Visit the Exhibit Car of the Chicago, Milwaukee & St. Paul Railway.

The exhibit car of the Chicago, Milwaukee & St. Paul Railway, containing exhibits of farm products, fruits, etc., from the new country along its Pacific Coast extension in the Dakotas, Montanas, Idaho and Washington, will be at Janesville on Wednesday, January 6th.

These exhibits are interesting. They show the possibilities of this new country. You are cordially invited to visit this car and to inspect the exhibits. ADMISSION IS FREE.

The country along this new line is being rapidly settled by a good class of farmers. The land is fertile, irrigation is not required in most sections, and crops are of large yield and of good quality. Excellent farming land is still cheap. Government homesteads may still be secured close to the new towns along this new line. This is the country where you can get a good start toward future independence.

Booklets describing this new country may be secured free of charge at the car, from F. A. Miller, General Passenger Agent, Chicago, or from Geo. B. Haynes, Immigration Agent, 348 Marquette Bldg., Chicago.

SERVED SUMMONS ON E. ELLSWORTH

Action For Board Bill is Commenced at Instance of W. C. English Yesterday

Yesterday the summons in the action of W. C. English vs. E. Ellsworth was commenced by the service of a summons on the defendant. The action is brought to recover the amount of a board bill. George Stringer, a son of Mrs. Kate E. Kennedy, who recently had Ellsworth arrested, in last July, was employed by Ellsworth, and at the time Mr. Ellsworth told Mr. English that he would be good for his board bill, according to the complaint in action.

Stringer's board bill amounting to about $100 was not paid and Mr. English now wishes to recover that amount from Mr. Ellsworth.

The suit will be tried in the municipal court.

REWARD.

$100 reward offered for the arrest and conviction of parties who broke into my slaughter-house.

PAID FINES TODAY FOR USING FERRET

Two Town of Janesville Farmers Pleaded Guilty in Municipal Court Today.

Fred Risch and Thomas Creighton of the town of Janesville pleaded guilty this morning to a charge of hunting rabbits with a ferret on the land of another without the owner's written permission. The complaint was made by Game Warden Peter Drafahl and the offence was committed on December 27th. Judge Fifield affixed a fine of $10 apiece and costs, which was paid.

Stevens Fined

John Stevens, who was arrested last evening on Jeromo avenue while intoxicated, was brought into court this morning and pleaded guilty to a charge of drunkenness. Some of Stevens' neighbors telephoned to the police station last evening saying that Stevens had driven his wife out into the cold and was roaring drunk. This morning in court he denied having done so and laid his fall to the fact that he had met some friends and to "bad booze." He was very penitent and as this was his first offence he was fined $3.10, which was paid.

Humphrey Examination

Yesterday afternoon at the conclusion of the session of the court the examination of Henry Humphrey on a charge of embezzlement was adjourned until the 7th of January. Messrs. Hanson and Bartel for the prosecution were examined and cross-examined and the prosecution closed its case with their testimony.

Recovered Muff

In response to a letter from City Attorney E. T. Walch of Waukesha, Chief of Police George Appleby yesterday located a muff which had been left here about a week ago. The muff, which belonged to Mrs. Walch, had been forgotten at the Wright restaurant, where it had been kept for the owner by the proprietor.

Many Lodgers

The cold weather of last night furnished a large number of lodgers at the city hall. Some twenty men availed themselves of the shelter there.

CUNNINGHAM CLASS HAD ANNUAL FEAST

Sunday School Class of Baptist Church Enjoyed Sociable Time at Home of Teacher.

One of the most successful annual banquets which the Cunningham Boys' class of the Baptist church have ever held, was given last night at the home of their teacher, Mrs. John Cunningham, South Bluff street. The guests of honor at the gathering were the young lady friends of the class members and Miss Eliza Stoddard and Mr. and Mrs. F. E. Birch. After a most delicious dinner, a number of toasts were responded to as the program of the evening, Llewellyn Cannon, president of the class, acting as toastmaster. Following the toasts, games were played and at the conclusion of the evening's entertainment, was the Joke Christmas tree. The entertainment, socially, was one of the best the class has ever had.

The following is the program which was given:

The Ladies .....Floyd Davis
The Boys .....Miss Wilma Jones
Class History.....LeRoy Eller
The Class of Cunningham .....
Original Poem by Miss Eliza Stoddard.
Remarks .....By Mr. Birch
Closing remarks by Mrs. Cunningham.

MARRIED IN ROCKFORD ON TUESDAY EVENING

Mr. and Mrs. E. C. Badger of the Forest City Are Now Visiting Local Relatives.

Mr. and Mrs. E. C. Badger of Rockford, who were married on last Tuesday evening, are now the guests of Mr. Badger's brother, A. E. Badger, of this city. Mrs. Badger was formerly Miss Ella Emerson and is known in Janesville, having visited here a number of times.

Mr. E. C. Badger is also well known here and has two brothers, A. E. and E. L. Badger, who make their home in Janesville.

OBITUARY.

Joseph Loeb.

Joseph Loeb, a former resident of Janesville, died yesterday at his home in Chicago at the age of 65. He leaves the following children to mourn his loss: Charles, Bello, Harry, Nathan and Mrs. R. Miller. The funeral will be held from his home on Friday and the interment will be in Chicago.

Mr. Loeb will be remembered as having conducted a meat market here a number of years ago.

ARCHIE REID & CO.

One of Janesville's oldest and possibly one of the most successful merchants is Archie Reid. The store, though not of pretentious proportions, is always well stocked and has always maintained its good share of Janesville's patronage. Through the season Mr. Reid has been able to purchase many sample lines from the manufacturers and sells them at about a third less than regular retail prices.

Coming Attractions.

Augustus Thomas' highly imaginative play, "The Witching Hour" will be the attraction at the Myers Opera House on Thursday, January 7th. The tremendous intensity of its big dramatic situations and its brilliant dialogue, which can always be expected from the author of "Alabama," "In Mizzoura" and "Arizona" would be enough in themselves to please the mass of playgoers and make this a decisive new Thomas success. Those who seek a higher inspiration from the drama will also find it in this unique play and it places Mr. Thomas further ahead of the front rank than ever. The beauty of the second act is particularly appealing in its mystic and sentimental charm, woven as it is around one of Bret Harte's exquisite poems. The fourth act adds increased value to the other three by turning all the drama and all the occult themes into the most admirable inspiration to nobler thought and character.

MISS LOUISE PRICE IN "THE COUNTY SHERIFF," TONIGHT

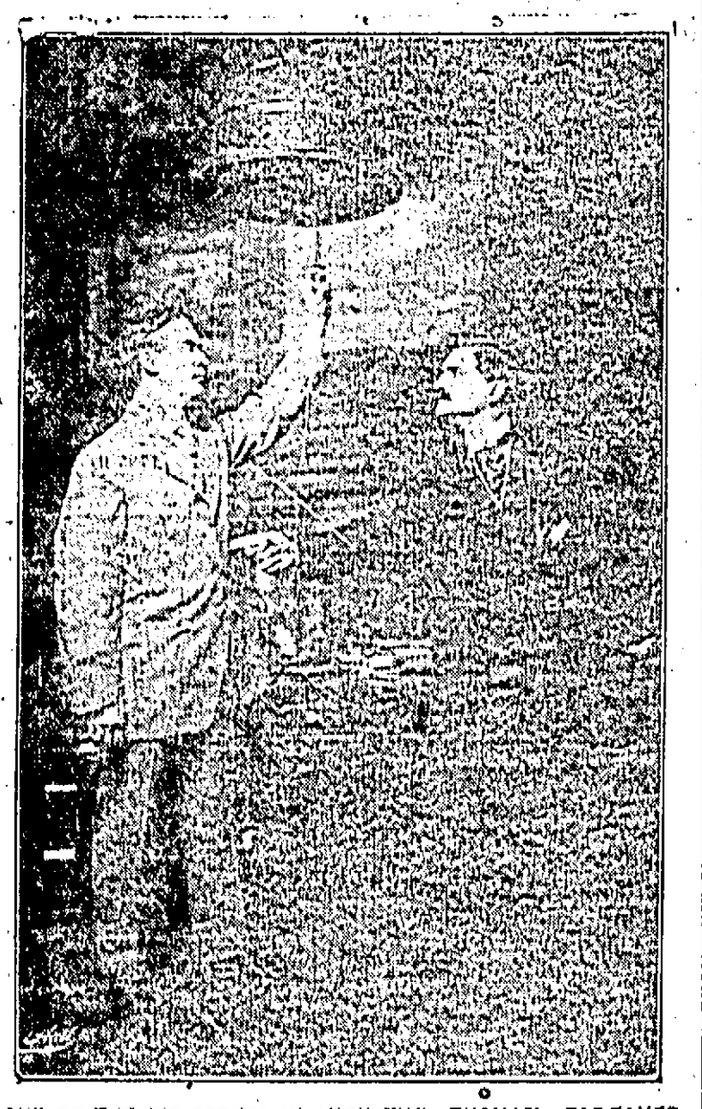

Latimore & Leigh Stock Co.

The management of the Myers Theatre takes pleasure in announcing the engagement of the Latimore & Leigh Stock company which will play a week's engagement, beginning Monday, January 4.

This attraction is regarded as the strongest and most thoroughly equipped popular priced organization on the road today. There is not a detail that has been overlooked either as to plays or players. Its repertoire consists of some of the latest and most successful high priced reproductions, while scenery and all other accessories that go to make a stock company a success are also carried.

This company is headed by Miss Mae Laporte, the dainty little comedienne, of charming personality, excellent voice and stunning stage presence. Miss Laporte's wardrobe of exquisite gowns is said to be the finest and most costly every worn by an actress with a traveling stock company. She has surrounded herself with a most competent company, and this engagement is awaited with much interest by the local patrons. The opening play is "An American Gentleman," with vaudeville between acts, including the great box mystery.

Ladies will be admitted free under usual conditions Monday night. Seats on sale Saturday morning.

"What's" that?" demanded Blake. "Oh! sure, Hold on, Miss Jenny. You'll dump it all."

He wrapped a wisp of grass about the pot, and filled the three cocoanut bowls. The stew was boiling hot; but they fished up the oysters with the bamboo forks that Blake had carved some days since. By the time the oysters were eaten, the liquor in the bowl was cool enough to drink. The process was repeated until the pot had been emptied of its contents.

"Say, but that was something like," murmured Blake. "If only we'd had pretzels and beer to go with it! But these nuts won't be bad."

When they finished the cocoanuts, Winthrope asked for a drink of water.

"Would it not be best to keep it until later?" replied Miss Leslie.

"Sure," put in Blake. "We've had enough liquid refreshments to do any one. If I don't look out, you'll both be drinking river water. Just bear in mind the work I'd have to carve a pair of gravestones. No; that flask has got to do you till we get home. I don't shin up any more telegraph poles to-day."

"Would it not be best for Mr. Winthrope to rest during the noon hours?"

"Afraid not, Miss Jenny. We're not on t'other side of Jordan yet, and there's no rest for the weary this side."

"What odd expressions you use, Mr. Blake!"

"Just giving you the reverse application of one of those songs they jolly us with in the mission churches—"

"I'm sure, Mr. Blake—"

"Me, too, Miss Jenny! So, as that's settled, we'll be moving. Chuck some live coals in the pot, and come on."

He started off, weapons in hand. Winthrope made a languid effort to take possession of the pot. But Miss Leslie pushed him aside, and wrapping all in the antelope skin, slung it upon her back.

"The brute!" exclaimed Winthrope. "To leave such a load for you, when he knew that I can do so little!"

The girl met his outburst with a brave attempt at a smile. "Please try to look at the bright side, Mr. Winthrope. Really, I believe he thinks it is best for us to exert ourselves."

"He has other opinions with which we of the cultured class would hardly agree, Miss Leslie. Consider his command that we shall go thirsty until he permits us to return to the cliffs. The man's impertinence is intolerable. I shall go to the river and drink when I choose."

"Oh, but the danger of malaria!"

"Nonsense. Malaria, like yellow fever, comes only from the bite of certain species of mosquitoes. If we have the fever, it will be entirely his fault. We have been bitten repeatedly this morning, and all because he must compel us to come with him to this infected lowland."

"Still, I think we should do what Mr. Blake says."

"My dear Miss Genevieve, for your sake I will endeavor not to break with the fellow. Only, you know, it is deuced hard to keep one's temper when one considers what a bounder—what an unmitigated cad—"

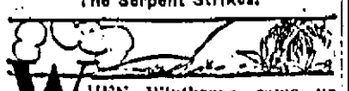

"Stop! I will not listen to another word!" exclaimed the girl, and she hurried after Blake, leaving Winthrope staring in astonishment.

"My word!" he muttered; "can it be, after all I've done—and him, of all the low fellows—"

He stood for several moments in deep thought. The look on his sallow face was far from pleasant.

CHAPTER XVII.

The Serpent Strikes.

WHEN Winthrope came up with the others, they were gathering green leaves to throw on the fire which was blazing close beside the ant-hill.

"Get a move on you!" called Blake. "You're slow. Grab a bunch of leaves, and get into the smoke, if you don't want to be stung."

Winthrope neither gathered any leaves nor hurried himself, until he was visited by a highly irritated bee. Then he obeyed with alacrity. Blake was far too intent on other matters to heed the Englishman. Leaping in and out of the thick of the smoke, he pounded the ant-hill with his club, until he had broken a gaping hole into the cavity. The smoke, pouring into the hive, made short work of the bees that had not already been suffocated.

Although the antelope skin was drawn into the shape of a sack, both it and the pot were filled to overflowing with honey, and there were still more combs left than the three could eat.

Blake caught Winthrope smiling with satisfaction as he licked his fingers.

"What's the matter with my expedition now, old man?" he demanded.

"I—ah—must admit, Blake, we have had a most enjoyable change of food."

"If you are sure it will agree with you," remarked Miss Leslie.

"But I am sure of that, Miss Genevieve. I could digest anything to-day. I'm fairly ravenous."

"All the more reason to be careful," rejoined Blake; "I guess, though, what we've had'll do no harm. We'll let it settle a bit, here in the shade, and then hit the home trail."

"Could we not first go to the river, Mr. Blake? My hands are dreadfully sticky."

"Win will take you. It's only a little way to the bank here and there's not much underbrush."

"If you think it's quite safe—" remarked Winthrope.

"It's safe enough. Go on. You'll see the river in half a minute. Only thing, you'd better watch out for alligators."

"I believe that—er—properly speaking, these are crocodiles."

"You don't say! Heap of difference it will make if one gets you."

Miss Leslie caught Winthrope's eye. He turned on his heel, and led the way for her through the first thicket. Beyond this they came to a little glade which ran through to the river. When they reached the bank, they stepped cautiously down the muddy slope, and bathed their hands in the clear water. As Miss Leslie rose, Winthrope bent over and began to drink.

"Oh, Mr. Winthrope!" she exclaimed; "please don't! In your weak condition, I'm so afraid—"

"Do not alarm yourself. I am perfectly well, and I am quite as competent to judge what is good for me as your—ah—countryman."

"Mr. Winthrope, I am thinking only of your own good."

Winthrope took another deep draught, rinsed his fingers fastidiously, and arose.

"My dear Miss Genevieve," he observed, "a woman looks at these matters in such a different light from a man. But you should know that there are some things a gentleman cannot tolerate."

"Told You So! See Him Wriggle!"

"You were welcome to all the water in the flask. Surely with that you could have waited, if only to please me."

"Ah, if you put it that way, I must beg pardon. Anything to please you, I'm sure! Pray forgive me, and forget the incident. It is now past."

"I hope so!" she murmured; but her heart sank as she glanced at his sallow face, and she recalled his languid, feeble movements.

Piqued by her look, Winthrope started back through the glade. Miss Leslie was turning to follow, when she caught sight of a gorgeous crimson blossom under the nearest tree. It was the first flower she had seen since being shipwrecked. She uttered a little cry of delight, and ran to pluck the blossom.

Winthrope, glancing about at her exclamation, saw her stoop over the flower—and in the same instant he saw a huge, vivid coil, all black and green and yellow, dash up out of the bedded leaves and strike against the girl. She staggered back, screaming with horror, yet seemed unable to run.

TRAGEDY IN KANSAS CITY, KAN.

Man Shoots Girl, Who Wedded Another, and Himself.

Kansas City, Kan., Dec. 31.—An hour after he had wished his former sweetheart, now a bride of less than a week, a "long life and a happy one," Ray Reese returned to her home in Kansas City, Kan., late yesterday and shot her through the breast, after which he stepped into an adjoining room and committed suicide by shooting himself in the head. The woman, Mrs. Clyde Setzer, 19 years old, is not expected to live.

Several months ago Reese was engaged to the young woman, then Miss Edna Mecum, but they quarreled and parted, and on Christmas eve, December 24, she married Setzer, and was living with him in Kansas City, Kan.

Missing Student Returns.

Lexington, Ky., Dec. 31.—The search that had been instituted to locate Willis E. Smith, a student at the Kentucky state university who disappeared on September 20 last, came to an end yesterday, when the young man appeared at the home of his sister in Owensboro, Ky.

A REVIEW of the YEAR

THE QUITTINGEST QUIT.

With this New Year a new resolve
I've made which seems quite fitting,
And that is, after much hard thought,
I've decided to quit quitting.

GRAVE, NOT CELL, FOR WILLIAM L. MATHUES

Former Treasurer of Pennsylvania, Under Sentence for Capitol Graft, Dies Suddenly.

Media, Pa., Dec. 31.—Sudden death came late yesterday to save from a prison cell William L. Mathues, former state treasurer of Pennsylvania. Though it was stated that his death was due to peumonia, it is believed his illness was superinduced by his recent sentence to two years in prison as one of the conspirators in the state capitol graft cases.

For many years William L. Mathues was recognized as one of the political leaders of Pennsylvania and his power in Delaware county politics was supreme until the expose of the capitol frauds by his successor as state treasurer, William H. Berry, also of Delaware county. It was then that Mr. Mathues threw off the mantle of Republican county chairman and retired "temporarily," as he stated, until he could be vindicated.

In March of the present year Mathues, former Auditor-General William P. Snyder, James M. Shumaker, former superintendent of public grounds and buildings, and furniture contractor John H. Sanderson were convicted of conspiracy in defrauding the state out of $119,307 in a contract for wooden furniture.

The same defendants were placed on trial later to answer a charge of defrauding the state in a metal furniture contract. On this charge they were acquitted.

BERNARD M. PALMER'S CABIN IN IDAHO

Mr. and Mrs. B. M. Palmer are now occupying a homestead claim near Kingston, Idaho, and the accompanying cut shows their present home. These homestead claims of 160 acres in extent can be taken up by anyone and a clear title may be obtained from the government after living on them for five years. In case the homesteader wishes to get the title sooner he may purchase the land from the government at a price of $2.50 an acre.

Land in that country is valuable only for the timber on it and its mineral deposits as it is too rocky for farming, but the timber alone on 160 acres is worth from $4,000 to $6,000.

The claim occupied by Mr. Palmer is in the northern part of the state, near the Coeur D'Alene mining district. Mr. Palmer went west on account of his health and expects to return at a future date.

Janesville's Family History--MCMVIII

Now For a Long Voyage!

"The Algonquin," a 29-foot rater, was purchased by Fred Baker, Arthur Granger, Sam Echlin, and E. V. Whiton on March 18, and put in commission on Lake Koshkonong.

Sails set and rigging taut for the New Year's spanking breeze? How about a little preliminary cruise along the old, familiar coast of Yesterday? Boisterous winds, strange whirlpools, hidden rocks and reefs and shoals, gloomy old derelicts, and the inevitable Cypress Islands where Sorrow ever broods, are not to be avoided. But they are all charted. Expect rather to encounter, on the passage, wide stretches of smiling sea; rippling bays where Endeavor's motor-boats and the rakish, nondescript, lovable craft manned by the wise men ply their thousand courses; jolly little coves that echo song and laughter, and never a murmur; sun-girt beaches where the minute battles rage; and lofty elevations where Art's varied beacon-lights sometimes twinkle, more often burn with steady fire.

The log-book for the year 1908 will convince the reader that Janesville—an independent city of 15,000 inhabitants, closely hemmed in by a thickly settled farming country and in daily communication by 70 passenger trains with Chicago and Milwaukee, 90 and 70 miles away—takes itself seriously, but possesses, nevertheless, a saving sense of humor. It has old traditions, yearns for more of them, but does not bow down and worship. The man who wants to call the City Marshal, "Chief of Police," may precipitate a battle but he will have his partisans. If the struggle ends in a draw, the venerable City Fathers are quite likely to decide to permit both to remain in the official roster—and pay neither. Some of the other unavoidable conclusions regarding the community are as follows:

That it revels in excitement and had it aplenty during the first few months. Indeed, there was serious talk of a vigilance committee and tar-and-feather applications for the metropolitan newspaper reporters.

That it yearns for a more beautiful scenic environment—if such a thing be possible—and is patiently waiting for the Park & Pleasure Drive association to provide the same.

That it is eager to, and does keep in the closest touch with all that is transpiring in the great wide world—crimes, catastrophes, and war; changes in fashions, the newest inventions, discoveries, and trends of thought; the most recent achievements in literature, art, music, and the drama; the ever-shifting vagaries, hobbies, foibles, crusades, and movements of the hour. Its pilgrims this year personally inspected the Japanese navy yard at Port Arthur and swapped yarns with the Lord High Admiral; corroborated reports that the Muir glacier in Alaska is receding from the sea; inspected the Flagler-ocean-going railroad on the coast of Florida; tossed centesimi into the Fountain of Trevi at Rome; wandered through the bewildering galleries of the Louvre at Paris; glimpsed the heather and Mist-clouds in the Scottish Highlands; helped welcome the battleship squadron at Portland; and, in order that friends might participate in their enjoyment, wrote delightful letters to the home paper from cities and states as far away as Yokohama and Sitka and Zurich, Switzerland, and as near by as Robertsdale, Alabama, Georgia, Florida, Washington, California, and Michigan.

That it loves company—and politics—and welcomed within its gates during the past few months such distinguished visitors as President-Elect Taft, William Jennings Bryan, Eugene V. Debs, U. S. Senators Robert M. La Follette and Isaac Stephenson, not to mention a whole galaxy of lesser political lights, savants from the universities, globe-trotters, eminent theologians, educators, athletes, musicians, actors, scientists, literateurs, sociologists, railroad men, miners, and confidence men.

That it was duly impressed by Ibsen's "Rosmersholm" as presented by Mrs. Fiske and the Manhattan company, Blanche Walsh in "The Kreutzer Sonata," Theodore Roberts, Herbert Kelcey and Effie Shannon, Henry Woodruff, Ezra Kendall, and a host of well-known players-folk; that it fosters a new Symphony orchestra of 20 gifted amateurs; that it supported and approved a series of splendid concerts under Apollo club auspices; that its Art League has already purchased paintings worth $1,000 as the nucleus of a permanent art gallery.

That its architects and contractors are not only rearing fine new structures here but have been engaged to plan and erect school-houses at Beloit, the $52,000 federal building at Kenosha, car-barns at Milwaukee, and at Bellefourche, S. D., the largest irrigation dam ever authorized by the U. S. government.

That it is the tobacco mart of Wisconsin. That it manufactures almost everything from cotton and wool goods to lightning rods, sulky-plows, and automobiles. That it is a community of industrious, wide-awake, and sensible people who build substantial homes, live within their incomes, and do what they can to make life "one grand, sweet song."

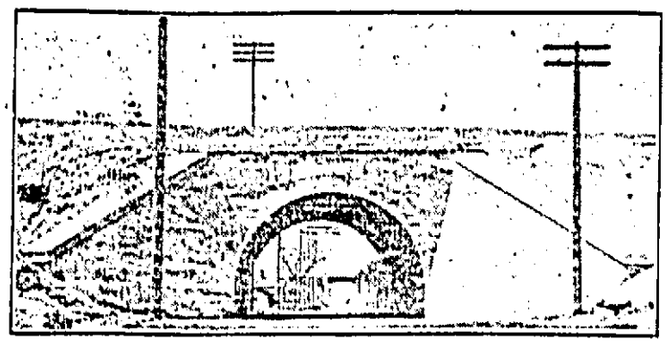

Therefore the expatriate, and even the casual visitor, may usually be depended upon to "hurry back" at his earliest opportunity.

Leap year's harvest was a bountiful one—Scan the voluminous record of marriages and be convinced!

The long list of prison sentences meted out by local courts merely testifies to the efficiency of police officers.—Few of the convicts ever had their names in the local city directory.

That project of reviving the county fair still belongs in the category of "Unfinished Business." It's bound to come. Anyway, look out for another big, original Nonesuch Bros.' circus celebration and homecoming on July 4!

HELMS SEED STORE

WALTER HELMS. NED C. HELMS.

The close of the year 1908 marks the end of our 41st year in the seed business in this city. We have always endeavored to maintain the highest standard possible in the quality of our seeds, and our increasing business shows how well we have succeeded.

During the past year we have added a new department to our store. Feed of all kinds. Hay, straw, grain and poultry supplies. Hatchford's Calf Meal, the perfect milk substitute for raising calves. Pratt's Animal and Poultry Remedies.

We also sell the Chas. A. Cyphers New Model Incubators and Brooders. The latest Cyphers Incubators is a winner and must be seen to be appreciated. We have two on exhibition.

Owing to our increased business we have been forced to lease additional warehouse room. We now have the building formerly occupied by the Eastman Bakery and are using it for a hay and feed warehouse. This is a two story brick building, hardwood floors and absolutely vermin and dust proof.

We wish to thank our friends and customers for their patronage during the past year, and we wish you all

A HAPPY NEW YEAR

As the year draws to a close we naturally look back to see what has been accomplished and see how our present situations and present prospects compare with a year ago. Notwithstanding the country has passed through a severe financial panic during the last year, we find our business has been prosperous. Our books show an increase of trade of over 60 per cent over any previous year and we feel that it is not a haphazard increase but the result of our increasing efforts to carry a line of goods that the people want and appreciate. We feel that our efforts have been recognized by the public and we appreciate it. A year ago two men and one delivery wagon were able to handle our business. Now it requires three or four men and two delivery wagons. Besides within the last two months we have been obliged to install an electric motor with suitable machinery to prepare mixed grains, etc., for poultry food trade that a year ago we handled by hand. All in all we are well pleased with the results of our efforts of the past year and kindly extend to our patrons our thanks for their liberal patronage, trusting we may be favored with a continuance of same.

14—Claiming to be the husband of the woman who has been introduced in local society circles as "Miss Winslow," sister of R. A. Winslow, an agent for the Northwestern Portland Cement Co. who has been stopping at the Hotel Myers for 7 weeks past, and disclaiming Winslow as a brother-in-law, U. S. Revenue Collector H. H. Giese arrives here and confers with the police; follows the couple to Madison; and surprises them at the Capitol House. At the trial of the circuit court action of Franklin E. Cook vs. City Marshal Phillip Welch of Edgerton for alleged false arrest, Atty. E. W. Carpenter makes an eloquent appeal to the inalienable rights of life, liberty, and the pursuit of happiness guaranteed by the Constitution, but Atty. Wm. Smith, for the defense, maintains that the framers of that immortal document, while stipulating happiness, hardly intended or expected that its beneficiaries should go and get drunk in pursuit thereof—Jury disagrees after deliberating 10 hours. Ezra Kendall and company in "The Land of Dollars" at the Myers theatre.

15—R. A. Winslow, the handsome woman who has been introduced as his sister, and H. H. Giese of Toledo return from Madison—Giese says that the "surprise" provided him with enough evidence to secure a divorce from the woman. Winslow says that Giese's only surprise was at finding the wife whose fortune he had squandered under the protection of her brother. Physicians meet and discuss the proposed plan of issuing bonds protected by a 1st mortgage on the present Palmer hospital property and St. Joseph's convent and of erecting a 4-story model structure on the site.

16—C. & N. W. officials, in conference here, decide upon the middle of April as the time for the begin to the new $500,000 assorting yards and shops at South Janesville—Yardmaster David Griffin is to be in full charge and is to act as trainmaster as well—The transfer from the Fortieth st. station, Chicago, which these yards are to relieve, will be gradual and the new headquarters may not be running full capacity for many months—Bridges between here and Evansville have been widened and the double track will probably be extended to Madison another year. Deputy Sheriff Fred Gillman is informed in a letter from Wilkesbarre, Pa., that the suicide, Dan Hogan, lived there a year ago. Charles Daering, a young German farmer residing on the Ruth Inman farm near Clinton, accidentally shoots himself and may not recover. Health Officer W. D. Merritt reports to the common council that the Columbus laboratory at Chicago has failed to find any evidence of the rabies in a section of the spinal cord taken from the "test dog," whose head was sent to Madison—is given a vote of thanks for running down the mad-dog scare and ascertaining its exact proportions—Bills of Edward Tracy and Sam Brown for special detective work in the vicinity of the bridges, at the direction of the Mayor, during the "Reign of Terror," are held up—Roller men who have already expended, collectively, the cost of a chariot, in trying to sell one to the city, are again on guard but no action is taken. (Continued from Page 15.)

APRIL

1—Hayes Bros. & Peters sign a $1,200,000 contract for building the 6,500 ft. government irrigation dam at Bellefourche—When completed it will form in an artificial lake in Dakota and Wyoming as large as any of the bodies of water around Madison. Fire and police commission meets and elects George Appleby Chief of Police, C. C. MacLean, Geo. D. Simpson, and J. F. Sweeney voting for him; Dr. W. H. Judd, for John Brown; and W. S. Jeffris, for Wallace Cochrane—appointments of P. H. Marskle as a full paid member of the fire department, and James Shortney, John Quinn, Lawrence Cronin, Jr., Edward Krueger, and John Murphy, as call members, confirmed. Sheriff I. U. Fisher is one of the 25 Rock county pilgrims departing today for Somerset village to take treatment under "Dr." John Till, the barefooted plaster wizard. I. J. D. Farrhurst of Orfordville establishes the Rock Crusher Auto Covers Co. plant in the 2nd. floor of the Bostwick & Sons building vacated by the Bassett & Echlin Co. An Illinois gasoline engine plant may come here. Basketball: Waukesha 21; J. H. S. 15. Edward Wray, who has been assisting in work of building an electric road in Porto Rico, starts home for a vacation.

2—Thomas F. McKey, a brother of George M. McKey of this city, dies suddenly at Coronado Beach. Cnl. J. S. Losee, Dr. Geo. Chittenden, and Frank Farnsworth purchase new automobiles.

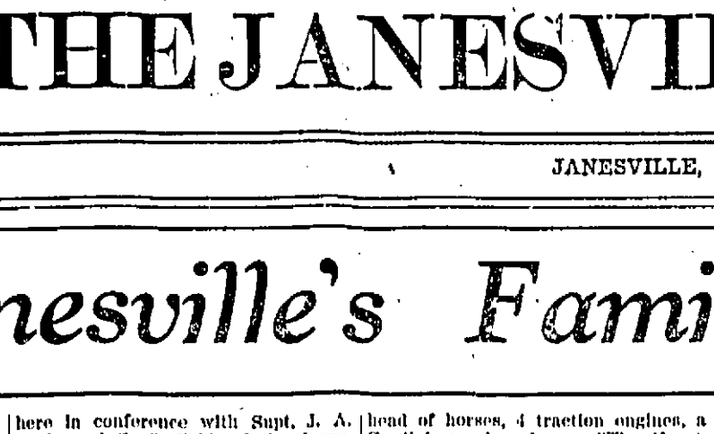

3—Chas. Wahler, a rose expert, arrives from Chicago to superintend the construction of Dr. C. G. Dwight's new green-houses. Rock County Sugar Co. expects to have 7,500 acres under contract and to handle 75,000 tons of beets this fall. Badger Gun club, holds its first shoot. Miss Ida Harper of Footville takes 4 headache tablets in a single dose and is almost lifeless when doctors reach scene. W. A. Haverstraw of Buffalo, traveling sec'y. of St. Andrew's Brotherhood addresses the men of Christ church. Stetson's "Uncle Tom's Cabin" Co. at the theatre.

4—Loss on the Julius Marquisee warehouse fire has been adjusted on a basis of a trifle over 50 per cent of the total insurance of $256,000. Knuto Anderson Lee who stole $60 from John Swayne of the town of Rock, while on a drunken debauch, is committed to prison for 18 months. Mr. and Mrs. Herman A. Knoff, residents of this city for half a century, celebrate their golden wedding anniversary. Mr. and Mrs. Fred Howe, Mr. and Mrs. G. Warren Skelly, and Mr. and Mrs. Seymour Johnson are sojourning at Havana, Cuba. Janesville Electric Co. establishes a branch plant at Fulton and will light the village. Friends of defeated candidates claim that state law cannot abrogate Janesville's holy charter and urge the aldermen to test their theory.

5—Several ministers ask their congregations to carefully weigh the question of purchasing the Mitchell property for a recreation park. Aurora, Elgin, Rockford, Janesville, and Beloit are represented at a meeting in the Lino City called for the purpose of organizing a Trolley Baseball League—Thomas Abbott and Patrick Garvin represent this city—Committee appointed to ask concessions of interurban road. Janesville Red Sox organize for the year with John Hall, manager; Paul Holtz, treasurer; Gus Schmidt and Tom Butters, pitchers.

6—Gazette publishes a design for proposed park on the Mitchell property by Landscape Gardener J. H. Frost—Allen P. Lovejoy, in a communication, strongly favors the park project. Under the weight of 200 cases of leaf (80,000 lbs.) north wall of Pember Bros.' leaf warehouse on N. Franklin st. gives way and six workmen narrowly escape death—Basement was being enlarged and foundations were not properly shored up. Hohenadel Co.'s 22 H. P. traction engine is now pulling 7 plows on the 1,000 acre tract—an agricultural innovation in this vicinity. Imperial Band amateur minstrels parade the streets and unload a new crop of fun at the theatre—Geo. Hatch, Walter Carle, and Ernest Strampe, "bones"; John Baumann, S. H. Buchanan, and "Al". Spooner "tambos"—some features; Major "Dick" Cullen's gum-spinning; Andrew J. Gibbons' monologue; solos by J. E. Riley, baritone, and Edward Smith; concert by Al Kneff and band of 25 pieces; estimated net receipts $150.

7—Election Day—Decrease of 468 in city vote as compared with the primaries—Proposition to purchase the Mitchell property for a park is lost by a vote of 655 to 510, only the 1st. and 5th. wards registering in favor of the project—City divides its vote between the Taft and LaFollette delegations to national republican convention but county gives the LaFollette candidates large majorities—In the race for the supreme bench, William Ruger, Sr., of this city carries Rock county by a vote of 2,727 to 2,009 for John Barnes and 1,419 for Robt. Bashford, but Barnes has a lead of 50,000 over his nearest competitor in the state—The entire republican city ticket is elected—In the 2nd. ward Ald. Geo. Buchholz (Rep.) is reelected by a vote of 239 to 182 for Ex-Ald. Edward Baumann (Dem.)—No licenses carries in Evansville, Milton, and Milton Junction; town of Rock which includes the village of Afton "goes dry" by 34 majority; Footville and Hanover by 50; Brodhead by 85—Beloit to retain the saloons by a majority of 373; Clinton "goes wet" by 41; Edgerton by 81; town of Janesville by 25. JANESVILLE GRANITE BRICK & STONE CO.

A local industry that is composed of home capital and men, namely: Wm. Zuill, J. R. Lamb, A. M. Fisher, A. E. Bingham, R. L. Corley, Mrs. Carrie Roberts, Everett Fisher, J. M. Bostwick, J. Shearer.

The plant of the Janesville Granite Brick & Stone Co. that is situated on South Main St., is furnishing a superior product for local building purposes and also supplying many buildings throughout the state. This plant was overhauled and remodeled under the supervision of Mr. R. L. Corley an experienced brick maker and engineer during the winter of 1907, and during the past summer has produced the best sand lime brick ever on this market. The output has met with much favor from Contractors and architects and has resulted in this brick being used in the majority of buildings that have been built in Janesville the past season.. Among the buildings that have been furnished with brick by this concern may be mentioned the following:

A high school at Baraboo, Wis.
A high school at Eagle, Wis.
M. E. Church at Dodgeville, Wis.
Catholic Church at Evansville, Wis.
Factory Building at Evansville, Wis.
United Brethren Church at Janesville.
Residence for Wm. Zuill at Janesville.

Normal School at Platteville, Wis., built from brick made by Janesville Granite Brick & Stone Co.

Hospital at Columbus, Wis., built from the superior product put out by the Janesville Granite Brick & Stone Co.

New Bostwick Building, Milwaukee & Bluff Sts., Janesville.
M. P. Richardson Building, So. Main, Janesville.
Hohenadel Canning Co. Factory addition, Janesville.
Hough Shade Co., Janesville.
Lutheran Church Building at Madison, Wis.

Wherein Many Oppositions Fail.

An opposition has got to be in earnest in championing honest government; it has got to look genuine as well as be it, and it has got to believe in itself, before it can induce the country to vote against ministerial candidates who come to them bringing loaves, fishes, postoffices and wharves. —Toronto Saturday Night.

Bright Boy!

"James, my son, take this letter to the post office and pay the postage for it." After a little while the boy James returns highly elated, and says: "Father, I seed a lot of men putting letters in a little place, and, when no one was looking, I slipped yours in for nothing!"

Too Much Theory.

An eastern exchange tells us that according to the Mazdaznan theory too much gold mining, gold being the nerve substance of the earth, produces the spots on the sun. This may not be obviously lucid, but it at least suggests that instead of calling them sun spots hereafter the name be changed to Mazdaznans.—Cleveland Plain Dealer.

Good Plays But Poor Actors.

The trouble (of the stage), in the provinces is not a dearth of plays. There is now a large repertory of modern plays of every kind on which the provinces can draw. It is the acting that has been and still is at fault.—London Stage.

Rent Baths for Sunday.

"I have heard a good many stories illustrating thrift," remarked a New Yorker, "but the janitor of some new steam heated flats told me one that beat them all. On Sundays the tenants have a great many visitors, and the janitor discovered that these visitors paid the tenants two cents each for the privilege of taking a hot bath; five cents if they did not bring their own towels."

The Future Vocation.

It is customary in Spain when an infant first begins to notice things to place before it a silver coin, a sword, a silver cross, a book and some fruit. The object to which the child stretches his hand indicates, according to accepted belief, his future vocation. The coin is for commerce, the sword for the army, the cross and the book respectively point to the church and the law or learning, while the fruit denotes a farmer or landowner.

—WHEN!—

When the high-toned canvasser
Comes with his muzic roll,
And hands his card (engraved in)
Our girl, why bless your soul,

Says to him, "Just come right in!"
And Maw, she stops to dress.
When Maw finds out who it is,
She's pretty mad, I guess.

DO IT NOW

Janesville People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright's Disease, gravel or some other serious form of kidney complaint.

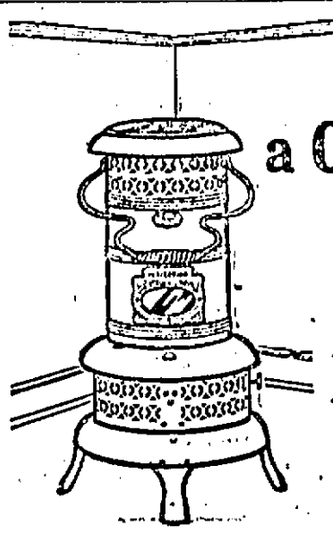

If you suffer from backache, headache, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they cure where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

Mrs. Chas. Potter, living at 138 Washington St., Janesville, Wis., says: "My husband thinks Doan's Kidney Pills to be just as represented. He used them for kidney trouble with the best of results. For some time his back was weak and lame and he had pains across his loins. He used a number of kidney remedies but none of them gave him any relief. Finally I saw Doan's Kidney Pills recommended in the papers and went to the People's Drug Co. and procured a box for him. The result of their use was very satisfactory. The pains in his loins and the backaches left and he has had no return of the annoyance since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

20 Per Cent Saved

A saving of 20 per cent is a considerable item—one-fifth—it is big interest on your money.

100,000 families have found that they can cut their fuel bills 20 per cent and they are doing it every year.

Not only do they make this saving, but they save time, worry, strength and health by using the ideal fuel—Solvay Coke. This is a combustible, made by the patented Solvay process which removes practically all elements from the mixture of coals from which it is made, except the heat elements.

It is a concentrated fuel.

Solvay Coke

The housewife enjoys it because it is clean—easy to have—light in weight and because it is always dependable whether used in cook stove, heater or furnace.

There are no ashes to sift—no clinkers to remove—a quick, hot fire can be obtained in a few moments and kept as long as desired.

Taking advantage of its favorable reputation, unscrupulous fuel dealers have been offering inferior cokes stating that they were made by practically the same process as Solvay Cake. In some cases they have offered these cheap imitations as Solvay itself.

Buyers should insist upon having the genuine.

Janesville Spent Nearly Three Fourths of a Million Dollars This Year in New Buildings and Improvements

During the past year Janesville has forged ahead in the building world at a rapid rate. Perhaps it is no idle statement to say that more houses and buildings have been constructed in the past twelve months than in any previous year for many decades.

Janesville is growing in population and to meet this growing demand more houses have to be built to meet the demands of the ever increasing increase in citizens. These homes for the most part are owned by the individuals who move out of their rented places of residence into homes of their own.

Janesville is a city of homes. More people own their homes in this city than perhaps any other of the United States of qual size. The new directory consumplaces the total population at over fifteen thousand—an increase of six hundred over last year. This is a remarkable growth and to meet its requirements new buildings and additions to old structures have been made a necessity.

The two largest additions to the down town buildings in the past year are the structures of the J. M. Bostwick and Sons on East Milwaukee street, and of the Richardson estate on South Main street. Both were rented before constructed and both are valuable additions to the business section of the city.

The Bostwick building, East Milwaukee and Huff streets, is a handsome structure of white facing brick, manufactured in Janesville. It is of the building being of brick. The size of the structure is 65x67 feet and consists of three stories and a basement.

Pember Bros. this year erected a tobacco warehouse on the site of the old building formerly owned by Henry Klein. There are three floors with basement. The materials used in the walls were red brick and the building is valued at $6,000.

The Colvin baking company this fall put up a model bake shop, office and sales room, on the corner of Wisconsin and East Milwaukee streets, with flats above the bakery. In the arrangement of the ovens and working rooms this building will be most convenient to the owners. Complete, it is estimated the cost will be about $20,000.

The most modern wholesale and retail greenhouse plant in the state of Wisconsin, is the one erected by Dr. C. G. Dwight on Jackman street. In this there are 30,000 square feet of glass used, the framework of the building being of iron. There are three houses, each 265 feet long and 27 feet wide. Also, there is a lean-to 240 feet long and fourteen feet wide.

In the heating of the building, eighteen thousand feet of inch and a quarter pipe are used to distribute the heat through the building. Several miles of wire are required to support the plants. The capacity of all houses is 17,000 roses and carnations, and an estimated value is $10,000.

At the School for the Blind, the state expended $10,000 this year for the erection of a two story music hall to be built of white brick with trimmings of Joliet stone—a most handsome structure.

The finishing touches on the church of the United Brethren in Christ, on Milton avenue, were put on this year, the dedication occurring May seventeenth. The building and lot are valued at $18,500.

Contractor Fred Roesling built two dwelling houses at the corner of Division street and Oakland avenue, each one at a cost of $5,000.

At the corner of Pleasant and Madison streets, a cement tobacco storage warehouse was constructed for F. S. Baines of reinforced concrete, capacity 6,000 cases. The cost of the building was twelve thousand dollars and it is unique because there are no windows in the sidewalls of the building, all of the light being drawn from the skylight. The building consists of two stories.

For Dr. E. E. Loomis a double cottage was erected on South Main street, the cost being about $5,000.

Work was started this fall on a tobacco warehouse for Jos. Ryan which will be completed as near to the first of January as is possible. This building is located on the corner of Holmes street and Center avenue where the old grain elevator formerly stood. The cost of the warehouse is to be $4,000. Its capacity will be two thousand cases.

Dr. Nuzum's fine residence on the corner of J[illegible] man street and Milwaukee avenu[illegible] which was started last year, was c[illegible] pleted in the early part of this year.

I. T. Mat[illegible] erected a nine room home costing $5000 on Pleasant street one block w[illegible] of the High school.

James H[illegible] nt expended $3000 for a fine new [illegible]room frame house on Cherry stree[illegible]

H. T. Koll[illegible] of Brodhead, is having a $3000 hou[illegible] put up for him on High street just b[illegible] nd the railroad depot.

An additio[illegible] n the pop factory belonging to C[illegible]les Gray was built on this year. [illegible]enlarges the factory space and a[illegible]ives room for a spacious office. [illegible] is one story high, is built of woo[illegible]nd was put up at a cost of $1,000.

F. J. Hinter[illegible]od built an excellent nine-room ho[illegible] on Prospect avenue GALEY 2 BU[illegible]ING ... ... at a cost of [illegible] thousand dollars.

Henry Tall[illegible]s erected a frame seven room ho[illegible] on Cornelia street costing $2,000.

August Mar[illegible] a one room house for $200.

For August[illegible]ller, a $1200 four room house w[illegible]uilt on Eastern avenue.

On South Ja[illegible] on street Dr. Elfield expended $5,00[illegible] a twelve room residence, includi[illegible]ices for himself in the basement.

Remodeling [illegible] home, adding two rooms, and rais[illegible] the foundation, cost Roy Valleau of[illegible]tor street, $2,200.

W. H. Park[illegible]had constructed a residence on the corner of Pleasant and South Academy streets, paying for it, $6,000.

Robert Wiggington has erected a nine room frame house on Pease Court, which cost him $4,000.

On St. Mary's avenue, Edward H. Connell has had a seven room frame house constructed which cost $2,400.

Jas. Brierty is the possessor of a seven-room house on Lincoln street, at a cost of $2,000.

Grant U. Fisher has built a cement block house on South Main street that is a fine example of the kind of a house that can be built from the blocks. One of the features of this residence are the shingles used, which are the Asbestos century shingle, laid after the French way.

Another example of fine architectural art is the home which Fred R. Jones is having built for himself on Jackman street. This is a frame dwelling, shingled for sixteen feet with white pebble dash above that.

A fine dwelling on the same street is the California bungalow put up for Mrs. M. A. Shopbell. It is brick-veneered with eight rooms and was erected for $4,000.

Mrs. Mary Dougherty expended $1,000 in making improvements on her home on Cornelia street.

Mrs. Sophia Marksman invested about $2,700 in a nice nine room home on Forest Park boulevard.

Along with the other nice residences which have been put in on Jackman street, is the fine new home of S. C. Cobb, on the corner of South Third street.

For flour storage purposes, Bennison & Lane added to their present building a warehouse 22 feet by 66 feet in size, one story and basement, costing $1,500.

In Spring Brook, the Hough Shade corporation, have a new warehouse to be used for storing hammocks and hammock yarn for their new specialty—the Vudor hammock. The building is 54x85 feet, of red brick with foundation wall of reinforced concrete. It will be fireproof, the only wood used in putting up the structure being in the doors, thresholds and window sashes.

Gradual rotting of the studding of the icehouse of the Rock River Ice company caused the building to collapse on the night of October 14th. While the building was not entirely destroyed, it was necessary to practically rebuild the structure. The building is still of the same size, 60x100, by 24 feet high, but new timbers have been put in to take the place of the old ones.

On South Main street a storage warehouse for tobacco was built for C. J. Jones for $1,000.

J. Summers put up on Wisconsin street, on the site of his former office, a double flat worth $4,000.

His son, Harry Summers, has a fine new residence erected this year, on Milwaukee avenue. This is a two story frame dwelling valued at $3,500.

On Milton avenue, Fred Stillson has frame eight room house on Walker street for $2,000.

Double flats were put up on South Academy street for L. Wilbur to cost $4,500.

The Blodgett Milling company this year put up a twostory brick office building. Extensive enlargements were made to the warehouse in the factory so that the entire sum expended will be about three thousand dollars.

In Spring Brook, Ill. Howard had a chapel of cement blocks, 30x30 feet, built for public worship. The cost of erection was about $300.

Walter Bumgarner built for himself a nine room house on Logan street.

On North Vista avenue a residence of nine rooms costing $3000 was built for John Shields.

This spring P. S. Bagarner put on the finishing touches on a $2200 eleven-room home on Sham street.

Herbert Hawthorne this year had erected for himself in the First ward, a cottage costing $150 for Adam Holt, a frame residence was [illegible] corner of Racine and [illegible] streets.

P. A. Pederson [illegible] six-room cement bloc[illegible] Racine street.

Repairs and improvements to his home on Western avenue cost Wm. Buggs $1200.

For the same work, Mr. Thoroughgood expended $350.

During the past year a sprinkler system has been installed in the entire factory of the Janesville Machine company and an addition was built onto the pump house for furnishing the pressure for the fire protection system which they have. New equipment was also purchased.

Their old offices on the first floor have been entirely torn out and remodeled and enlarged. The new offices will give them about twice as much office space as they formerly had. The offices of the [illegible] department will be on one side [illegible] central area and of the manu[illegible]uring department on the other [illegible] The upper rooms which have [illegible] used for the offices, temporarily, [illegible] be used for exhibition of sample[illegible] in directors' room. A wide stair[illegible] has been built from the office up [illegible] sample room.

The railroad hotel at [illegible] of the Northwestern [illegible] was erected this year by the [illegible] Janesville Improvement comp[illegible] In this building there are [illegible] thirty-five bedrooms, a store room [illegible] room intended to be used as a [illegible] shop, besides the lunch cou[illegible] dining room, kitchen and bat[illegible]. W. J. Hill's addition to the number of houses constructed this year was three cement houses on Riverside street, of six rooms each, and worth about $1,200.

J. Kulb, on the same street, put up a cement block residence worth about sixteen hundred dollars.

About the largest remodeling job that was undertaken this year was the touring out of the side and front of the Ziegler store in the Carle block and putting in the foundations for plate glass windows. The cost of making the change was $5,500.

Changes were likewise made in the Sutherland block, for the Holmes store. This was not quite as difficult nor such an extensive piece of work. The changes were made for $1,000.

In improvements on her home on St. Lawrence avenue, Mrs. Whiton expended $800.

About $500 was the sum the Baptist church laid out in repairs in and around the parsonage on North High street.

The word "VUDOR" might well mean "great comfort at small cost."

VUDOR Re-enforced Hammocks on a porch made comfortable by VUDOR Porch Shades are certainly a delight. They are made in many colors, styles and grades, but each and every one of them is made with the re-enforced body—extra strength where extra strength is required.

VUDOR Hammocks are truly "the kind that last."

Does the Public Know?

A Frank Talk Between Two in the Trade

A COMPETITOR SID TO US THE OTHER DAY—we call him a competitor out of courtesy because he's one of those who is suffering from the effects of the E-M-F popularity and so doesn't compete to hurt—hentia: "It's simply marvelous that you fellows can sell 'Blue sky,' 'a car on paper,' the way you do. It's incredible—or would be if I didn't know scores of persons who have actually laid down their money and ordered a car they have never seen and which you say yourselves you won't be able to show them here in Janesville for some time."

"THE E-M-F '30' IS THE RAGE HERE, as I hear it is everywhere—no use denying it. The public has simply gone foolish over that car. In a dozen cities it is already selling at a premium. Why, we find it impossible to use a sale for our cars—those who haven't actually ordered E-M-F '30s" insist on sitting till they see 'em."

THIS WAS A CANDID, HEART-TO-HEART TALK between two men in the trade—competitors, but personal friends. We'd talk these matters over, you know. So we enlightened him—not too gently, perhaps, but frankly as friends do—telling him facts he knew in his heart to be incontrovertible.

"YOU KNOW, AND WE KNOW, that the E-M-F '30' represents the best value to be had in an automobile today—what need knock further for a reason why the public has accepted this car at par and prefers it to yours?"

"BUT OUR CAR HAS A REPUTATION," he said. "For what?" we asked. He didn't reply—for this was a candid conversation between two men in the trade. So we continued: "You tried to sell the same car last season for $2000—and couldn't. This year you cut the price down—then the E-M-F '30' was announced. The worst you can say about your this year's model is that it is like its predecessor."

"BUT THE PUBLIC DOESN'T KNOW what you and I in the trade know," he protested. "That's just where you miss the mark," we said; "the public—the automobile public—does know. They know the reputation of the men behind the E-M-F Car, and the more they know of that the more eager are they for the car." Does not the public know—

SAY THAT HERESHOFF WILL DESIGN A YACHT—The world will wager ten to one it will win the Cup. Say that Belasco will write a play—the ticket speculators will get busy. Say that Kipling will write a poem—the output of the print-shop will be contracted for before the first stanza is penned. The public does know!

SAY THAT "BILL" KELLY WILL DESIGN A MOTOR—the Automobile world will wager it will develop more power than any other combination of cast iron and aluminum any other engineer can design—and Kelly designed the E-M-F "30." "But Kelly hasn't always—" "No; Kelly hasn't always had a Flanders to complete his work"—that's the answer.

SAY THAT FLANDERS WILL MANUFACTURE A CAR from Kelly's designs—every other manufacturer will throw up his hands—they know their master. Say that Everitt will fashion the gown—make a body—for Kelly's chassis—that's equivalent to saying the outward appearance will be in keeping with mechanical excellence. Say that Pierson will sell the product—that's a guarantee it will "stay sold"—the Golden Rule in practice stands for anything.

HE DIDN'T SAY TO ARGUE—for this was a candid talk between two in the trade.

THE PUBLIC DOES KNOW. That's a fact so firmly believed by the makers of the E-M-F Car, every detail of design, every specification is calculated to appeal to and to convince men who do know. The fire policy is intended to withstand the bright light of day.

DO WE SELL BLUE SKY?—Then did the Cunard Steamship Co. purchase a large chunk of that same commodity when a few years ago it contracted to pay fourteen or fifteen million dollars for two steamships of which not a race was yet on paper—of which the only tangible thing was the reputation, the experience, the organization and the facilities—not to say mechanical and commercial integrity—of the men who contracted to deliver the goods.

A FELLOW BY THE NAME OF FROUDE—with the assistance of some other engineers and draughtsmen such as Kelly has—made the drawings and the specifications. He didn't show the Cunard Company blue print—didn't even agree to give the directors a demonstration. He said the two boats—which, by the way, were to be built in two separate yards by two companies, one at Clydesbank in Scotland, the other Wallsend-on-Tyne, would be bigger; carry more passengers more comfortably; and cross the Atlantic quicker than any other boats ever built. And the Cunard Company bit.

FROUDE TOLD THE CUNARD COMPANY that the empty hulls would draw 21 feet 6 inches (figures may not be exact—that's a detail). With engines in, 29 feet 4 inches. With full passenger and freight load, 37 feet 6 inches. And Froude told them to go ahead with the catalog. He went ahead, the boats, painted them and divided the colors at the point where he said the water line would be. When they slipped from the ways and settled down in the water—the rippling waves danced up and down with that line as a mean line! Wonderful?—no, just knowing, that's all.

DID THE CUNARD COMPANY DOUBT at first that Froude and his organization would make good? Here's what they did: Called in the advertising manager and told him a boat, named Lusitania, did sail from Southampton three years from next September Seventh; and another, Mauretania, November Sixteenth, following—and he'd better get busy on a new time-table.

That is history—they did sail—they did break all world's records—and to show you the public does know every stateroom was booked months ahead by live ones who wanted to participate in the breaking of a world's record.

DID THE CUNARD'S COMPETITORS SNEER when the the news of the two boats a-building was announced? Sure—openly. But inwardly they knew—and forthwith they got busy on designs for liner boats that should be able to beat these records already as good as made. It's the same story—you have an order in—one of the first—for an E-M-F "30" Car and as soon as you get it you'll try to design something for next year that will beat this year's E-M-F Car. Sure you have—this was a frank talk between two men in the trade, you remember. "Perhaps you'll be able to do it, too—perhaps. But this year is ours."

NO; THIS IS NOT A STEAMSHIP AD; IT'S AN E-M-F AD—we just want to tell you that automobile designing and manufacturing, by men such as those who have agreed to deliver us E-M-F Cars—the Everitt-Metzger-Flanders Company—is just as exact a science—is just as devoid the elements of guess and chance—as is the building of steamships from Froude's designs by the big yards of England and Scotland.

IF WE ARE SELLING BLUE SKY—then there are a lot of buyers. The Studebaker Company must be a unity—it sold 6,000 E-M-F 30 Cars, half the output, from the specifications alone—just as thousands of individual buyers are now doing. And the most astute automobile dealers in America must also have gone dead over this "Blue Sky"—for we won out in securing cars for Janesville against the most strenuous competition we have ever encountered in this line. And we could have any car we might choose!

WE THINK WE KNOW—WE OUGHT TO KNOW—the automobile business from every angle. And we didn't hesitate a minute. We asked only one question—how much of this "Blue Sky"—how many Cars—could we get for Janesville?

BUT WE ARE SLOW, so the factory tells us—you know we are called "ultra-conservative along the street. We haven't tried—have published only one ad and that in only one paper.

SAN FRANCISCO HAS SOLD 650—and the last news from there is four days old. A man who has his order in there with delivery option for any time in March, can readily get $100 for his place in the line. January deliveries are worth $200. San Francisco would buy a thousand more E-M-F Cars if she could get them.

MINNEAPOLIS BOUGHT 200 with an option on 100 more till New York Show time; took up the option four weeks ago and last week went on its knees to Detroit begging for another 100—couldn't get one additional car.

ARE WE SELLING BLUE SKY?—If we are, then we're selling it with the best guarantee that ever went with an automobile—a guarantee of entire satisfaction or your money back when you see the car—and a guarantee of fair, liberal, generous treatment afterward.

THE ONLY MAN WHO TAKES A CHANCE is the man who doesn't get a place in the line up near the front—number one on early delivery. He can get out any time—get a premium for his position if he is willing to accept radiator delivery. And he can get any one of the several competing makes in the minute—they have some of them on the floor now and most of 'em will stay there. The public does know—and it knows no other organization can compete with this one—none can deliver a car of this quality at anywhere near the price of the E-M-F "30."

A WORD TO THE WISE—THE WISEST; we don't like to sell something we can't show. But these conditions are unprecedented. The only way to make sure of an E-M-F "30" is to get in line—now—today. We will guarantee an exact delivery date and if you doubt our word, will tell you the name and number of cars in the line ahead of you.

BETTER GET IN THE LINE—we guarantee that the Lusitania will sail on time and that she'll break all world's records. Want a chart—a specification sheet—we'll mail it if you ask.

Stork Was Busy in Janesville During The Year Just Closing

Under the statutes of the state as they now are every doctor is required to report all births to the city health officer and the health officer is required to make his report to the board of vital statistics by the fifth of every month. The record as presented here is correct as far as can be made for the first eleven months of the year and practically all the new arrivals for the month of December are also included in the appended list.

The births below have been arranged in chronological order, the date of arrival, the name of the father and the sex of the child being given.

About two hundred and fifty new arrivals are listed here and the proportionate numbers are very close together. On the first of December the boys outnumbered the girls by eight only, the record standing 118 boys as against 110 girls. Two pairs of twins were born up to the first of December, Henry Finnigan becoming the father of twin boys on April 4 and A. F. Bluhm a boy and a girl on July 26th.

SOUTHERN WISCONSIN'S GREATEST DRY GOODS HOUSE

In going over the year's happenings it may interest the reader to think over some of the things that happen in Janesville on account of The Big Store being here. Many people do not full realize the magnitude of the business done by J. M. Bostwick & Sons and might be surprised to know the distances traveled by customers in order to have such unusually large assortments to select from. This store confines itself to Dry Goods, Ready-to-Wear Garments, Upholstery and Floor Coverings. By having a limited number of lines they are enabled to show assortments as large as those carried in cities many times the size of Janesville. The Big Store's buying power is so great that the leading importers and manufacturers are willing to confine their respective lines, give this store the exclusive agency, whether it be Rugs, Carpets, Linoleum, Curtains, Dress Goods, Silks, Underwear, Cloaks, Suits, Corsets or Gloves, etc., which accounts for one being able to find so many things here, 'goods' of quality, the kind that give satisfaction that cannot be seen in other stores hereabouts; but he prices are even lower than those asked by many stores for inferior merchandise. No other two stores in Southern Wisconsin buy the goods that this store does and such large buying means extra discounts that smaller stores cannot get.

Every merchant in this city is helped by the great drawing power of this sixty-year old establishment that advertises regularly in about twenty papers outside of the city. The name J. M. Bostwick & Sons is nearly as familiar in many towns in several counties of the state as it is in Janesville.

Another thought that is quite astounding: It is estimated that in a year's time about 200,000 calls are made at The Big Store. One thing that has contributed largely to the success of Janesville's leading dry goods store is the fact that it keeps the quality up.

CALIFORNIA-MEXICO.

A series of first-class personally escorted all-expense tours from twenty-one to fifty-three days duration, have been arranged by the Tourist Department of the Chicago Union Pacific & North-Western line to include Old Mexico, California and Colorado via a choice of the most desirable routes, leaving Chicago and other points during the months of January and February, 1909. Direct southern routes are used to California and Old Mexico, returning through California, Utah and Colorado. Also going via New York and Steamship to New Orleans. Correspondence solicited. Address or call on S. A. Hutchinson, Manager, Tourist Dept., Chicago Union Pacific & North-Western Line, 212 Clark St., Chicago.

Times Have Changed

Last year about this time the financial stringency was at hand, caused by those who control the wealth of the country and perhaps are still able to make themselves felt in similar fashion whenever they have a good thing in view. Independent industries were forced to close and the working people were idle and in want. A general depression in business was the result; yet Janesville, of its own, business was reported fairly good and cashiers' checks received cheerfully. The cities made being good, may be owing to the fact that home industry has been given the preference, and the home has a great effect on the business and opportunities of a town. Spend your money where you make it and you will have some chance of getting it back. Thirty-five factory makers are steadily employed in this town and work on better trades than any town of its size.

Five men are idle where the "El Marko," Clymer and Reliance Cigars are made. Every cigar goes through personal observation by the same. We never had a stock of cigars large enough on hand to collect for out of town trade, we have some mail order business but our output has been limited as we wish to supply home trade first. The reason we use this space to show our appreciation for past receognition of the merits of our goods and promise to use experience to keep up our reputation and merit your patronage.

With best wishes

Many of the Old Settlers Passed Away During the Past Twelve Months

During the year 1908 the grim reaper made his presence felt in the city of Janesville and many familiar faces will not be seen in the coming year. The total list of deaths during the year just closed is about 265.

In the record presented below no effort is made to include former residents who have passed away unless their remains were brought here for interment in either the Oak Hill or the Mt. Olivet cemetery, it being impossible to make a resume of greater scope at all accurate.

Those who passed away in this city but were buried in other places are also included in the following record.

No Ashes to Sift

It is not pleasant in the early winter mornings to get up and build new fires in the heater and kitchen stove—to clean out fire-boxes—shake down and sift ashes with the thermometer down to zero!

It is also unnecessary—lay in a supply of Solvay Coke—the fuel that lasts all night—that will heat the house thoroughly in a few minutes' time after the drafts are open.

There are no ashes to sift.

Solvay Coke

A ton of this ideal fuel goes as far as a ton of hard coal or two tons of soft coal and is equal to two cords of good body wood.

There are no clinkers to clog the grates—no smoke nor soot—no noxious gases.

You obtain complete combustion and a clean, healthy, quick fire.

Solvay Coke is being used by one hundred thousand families at a less cost and with far more satisfaction than is given by the best hard coal.

And the housecleaning work is child's play, for it is the cleanest fuel ever burned. Practically pure carbon—nothing to make dirt.

$200,000 Lost By Fires in the City During Past Year

Fire losses in the city of Janesville for the year 1908 are greater than for any other year within recent times and probably greater than in any other year since the settlement of the city. While in 1907 the loss was about $2,000 and in 1906 the loss did not reach more than $1,600, the total loss by fire for the year 1908 was over $200,000.

The biggest loss was through the destruction of the Marquisee warehouse which contained at the time some four thousand cases of tobacco valued at from $50 to $60 a case. The loss on the contents of this building was $150,000 and on the building itself $5,000.

The blaze at the Rufus Ressegui home on July 31, caused a loss in the neighborhood of $2,000 and at the Decker farm on the same day the fire, which partially destroyed the house and did entirely destroy the tobacco shed and barn with their contents including about 700 cases of tobacco and about 70 tons of hay as well as farm equipment, the blaze caused a loss of about $35,000. The fire at the home of Frank Snyder on November 4 was another serious one, the loss there amounting to $1335.

Glenn Graves sustained a loss of $50 by a fire at his home in the middle of January as did Sumner Proper on the following day, the 17th of January.

Other fires were attended by losses of various smaller amounts ranging from $150 down to practically nothing.

Alarms Increase.

The department was called out during the year 1908 practically one hundred times to answer to calls of various kinds, both to fight fires and rescue horses. The number of alarms showed a big increase this year as for the past two years the number has approximated only eighty in number.

Though this number exceeds the alarms of 1907 there were more still alarms and fewer bell alarms than ever before in the history of the department since the inauguration of the telegraphic alarm system. The numbers are: forty still alarms, twenty-nine bell aarms, one mistake.

Of the total number of alarms several were false and a number were caused by the breaking of a sprinkler head at the plant of the Janesville Machine company.

"Rescue Batallion."

Not all of the calls made on the fire department during the last year were for aid in fighting flames. Three time were horses extricated from difficulties. On May 5th a horse fell into a narrow ditch in front of Galbraith's barn and was dragged out by the department and on May 8th a team fell through a platform back of the Blodgett mill and were pulled out of the river. The last time was on September 23 when a horse fell through an old covered stairway in the alley by Thometz saloon.

New Equipment.

As a result of the fires at the Decker and Ressegui farms a new engine was purchased by the city which will be delivered during next February. The new machine is a first class one and the old one will be relegated to the Spring Brook station.

A turret nozzle has also been purchased by the department. This is for use in fighting fires where an unusual pressure is needed. With a pressure of 250 pounds a stream of water can be thrown higher than any building in the city. One horse was purchased to take the place of the Rat who died during the last summer.

Record of Fires.

The subjoined record gives the date of the blaze, the time of day, the box if it was rung in or still if the alarm was of that nature, the place of the fire and the cause when known.

H. T. Keller's Home on North High Street, Which Is Nearing Completion.

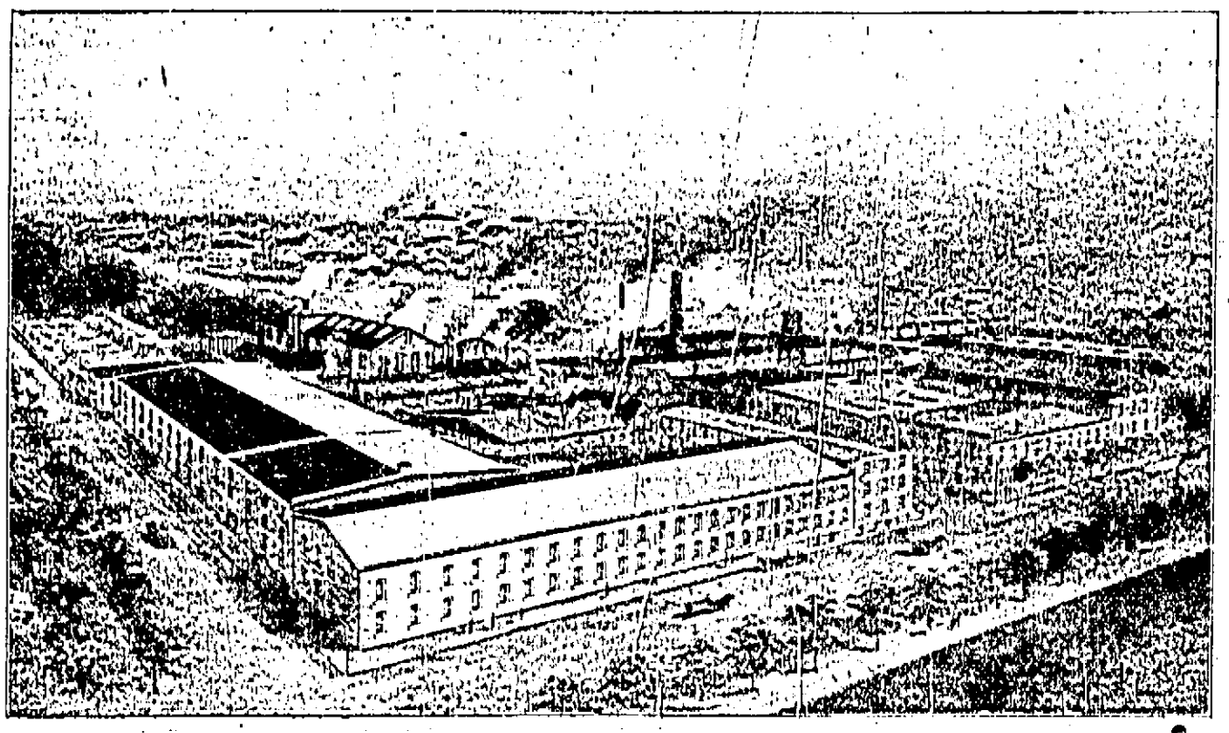

O. E. Wee's scenic production of the successful four-act melodrama "The County Sheriff" by Wm. W. Lapoint will be seen at the Myers theater tonight. The whole story is thoroughly American. It is lively and breezy throughout with an abundance of good hearty laughs, and a love story of an attractive sort. A play that will please. The cast includes Miss Louise Price, a young and clever actress in the part of Tuesday, a mountain girl. The balance of the cast includes a number of well known and exceptionally clever people.

Not Very Enthusiastic: Circuit Court Clerk Jesse Earle, when interviewed today anent the proposed gathering at either Fond du Lac or Milwaukee of all circuit court clerks of the state for the purpose of forming an organization, stated that he had not yet made up his mind upon the question as to whether such an organization would be worth while.

THE JANESVILLE MACHINE COMPANY

PLANT AND OFFICE BUILDINGS AT JANESVILLE, WIS.

One of the oldest and foremost manufacturers of Janesville

By living up to the principle of producing "nothing but the best" we have built up an enviable reputation among the trade.

By conducting a permanent experimental department, we are able to thoroughly test all new patents and devices before putting them on the market. By maintaining this department we are always enabled to ofer all that is new and good in this line.

Janesville Corn Planter

Variable Drop

With a small hand lever within easy reach from the seat you set the workings of a very simple automatic clutch so as to turn the seed half one-sixth, one-fourth, or one-third of a revolution, each time it is tripped off by the wire, which with a 2-hole plate, you see, will drop 2, or 3, or 4 kernels in a hill as you desire.

Having such a convenient and simple way to change the drop and being able to do it while the planter is in motion the operator is at all times in a position to take advantage of any variation that may exist the quality of the soil and thereby distribute the seed as you wish.

Compare this with the old way of changing the drop, and we think enough has been said on this subject.

THE JANESVILLE FOOT-TRIP, HORSE-LIFT, RIDING PLOW.

A perfect plow that does perfect work.

When you buy a rider, here are the things you want in it:

2. Economy of horse power.
1. "Horse power" only.
3. More Work.
4. Ease in handling.
5. An "easy lift."
6. Absolute control of bottoms.
7. Flexibility of bottom and beam.
8. Simplicity of action.
9. Riding or walking at pleasure.
10. "Right turn" or "Left turn."
11. No cramping in furrow.
12. Man or boy operator.

Now, Mr. Farmer, there isn't a plow in the world except the Janesville that will do each and all of these things to perfection.

PATENTED JANESVILLE FEATURES.

1. The Janesville self-leveling devise holds the heel of the plow up until the point has reached its predetermined depth, then allows the heel to drop to normal position.

2. The foot-lift is attached to the bale not to the beams. This prevents pulling against a center and permits lifting of the plow to a much higher point.

3. The bottoms are balanced between two springs—thus giving a very easy lift.

4. The Janesville bottoms being hung on a single bale, are almost absolutely independent of the frame.

5. The manner in which the furrow wheels are connected prevents pole ...on and keeps the rear wheel from cutting on the furrow. The rear furrow ...el is independent of the front furrow wheel and, in turning, follows bot... around at foot of the furrow.

JANESVILLE DISK HARROWS.

Strongest, simplest, most efficient and economical.

MR. FARMER: There's no need to waste words about what interests you in a farming tool. What you want and what you get (if your judgment is given free play) is:

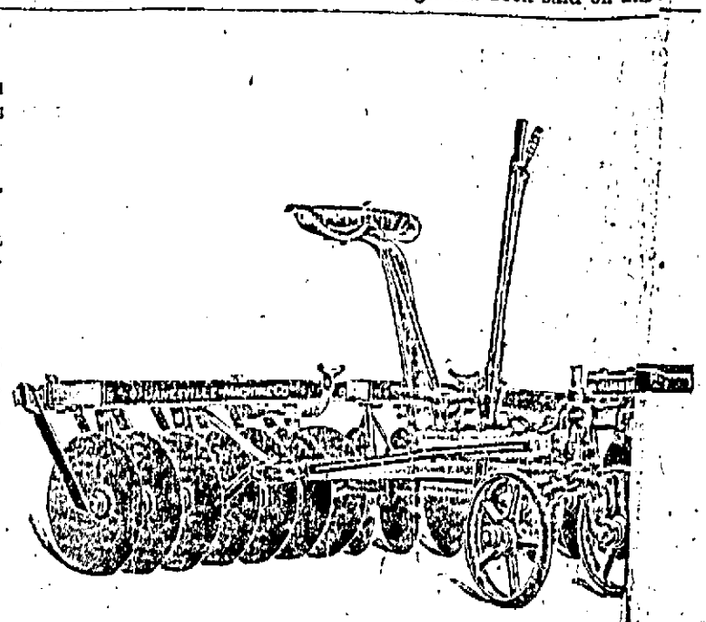

1. Ease of operation. 2. Economy of power. 3. Lasting value.

These are the merits of the Janesville Disk Harrows and they are the outcome of correct construction.

When a disk harrow wears out your horses, wears out yourself, wears out your patience—in short time and all together—it's because it is not properly made.

THE PRINCIPLE OF THE BUDLONG DISK HARROW.

The harrow is made in sizes varying from 5 feet wide to 10 feet wide and equipped with disks 16, 18, or 20 inches in diameter. It is constructed along simple lines and made very strong. The gangs roll on their bumpers at their inner ends, equalizing the side pressure on the two sets of disks. This direct contact of the gangs eliminates all strain on any part of the machine. Otherwise, if the gangs were held independent of each other by a frame or arch construction, the side pressure would cause a continual strain on the frame or arch. This shortsighted method of making any disk harrow means heavy draft, and a frame that will soon lose its shape through constant strain and twisting. Moreover, such a construction throws all the strain on the bearings, giving altogether very unsatisfactory results. The disks are of open hearth rolled steel of heavy gauge, sharpened on convex side, giving the best cutting edge to be found on any harrow. The bearings are either of maple or chilled steel. A little oil is all that is needed to make these bearings last a lifetime.

STORY OF 1908

RECORD DAY BY DAY.

Notable Political Events In America and Europe.

NAMES ON MORTUARY LIST.

Destruction of Life and Property by Accidents, Wrecks and Fires. Miscellaneous Item of Interest. The World of Sports—A Chronological Review.

The year 1908 has been memorable for a prolonged drought during the ripening season of most soil products, yet a bumper crop of point of value was garnered. Stirring political events fixed the attention of the world from the opening to the close of the year, notably in Portugal the king and crown prince being assassinated in February; in Persia and Turkey, resulting in changes in the form of government; in Morocco, where a pretender was placed on the throne, and in the Balkan states of Bulgaria, Bosnia and Herzegovina.

CLOSER TAB ON THE POSTAL MEN

AND WOMEN WILL BE KEPT UNDER NEW RULES.

SALARIES MAY BE CUT

As Results of Elaborate System of Demerits for Various Shortcomings and Errors.

Copies of the recent rules adopted by the Department for checking the efficiency and conduct of the clerks of the postoffices have been received by Postmaster C. L. Valentine. The rules are very strict in some respects but allow a margin for the discretion of the checking official.

Four factors are taken into account in the ratings. These are the speed with which the work is done, the accuracy with which it is done, the faithfulness of the employes in observing the postal regulations and office rules and their familiarity with the rules and instructions pertaining to their work.

The clerk and carrier having the highest record on quality of work will be marked 100 and the others will be rated in comparison with the leader. The rating on accuracy and faithfulness will be based on a scale of demerits in which one per cent is to be deducted from the standing for ten demerits. The scale of demerits is fixed by the department, and while the number of demerits is high for those things that are easily avoidable it is light for the things that are difficult to be avoided. Every error and offense must be reported to the person making it that he may enter a reason, if he can, why no demerits should be attached to that special case. Repetition of offenses increases the demerits.

The employe who receives five hundred demerits or whose standing is less than fifty when his record is called for will be reduced to the next lower grade, thus having his salary decreased a hundred dollars a year. If at any time he has 700 demerits, or if his rating is less than thirty his case is to be submitted to the department with a recommendation in regard to his removal or retention in the service. An employe may be restored to his grade after three months, making the penalty of his offense the losing of twenty-five dollars salary.

The rules go into effect in all first, second and third class offices with the beginning of 1909.

The list of offenses and the demerits attached to each offense is given in the rules. The greatest penalties come to those who are guilty of acts of wrong while outside the building and where the general public would have an opportunity of noting them. A few of the fines which are to be imposed in the way of demerit marks are here given:

For disobedience, insubordination, disrespect to superiors, making false statements, falsifying trip report or time record, giving information to public relative to patrons of office or mail matter, returning mail to patrons without authority after it has been deposited in box, registering for another employe and intoxication on duty, 500 for each offense. Reporting for duty under influence of liquor, drinking while on duty, 400 each; becoming intoxicated when off duty, 200; drinking in public place in uniform though off duty, and smoking while on duty, 100 each; discourtesy to patron, altercation with fellow employe, disorderly conduct in office, loitering in office, loitering on route, untidiness of person or desk, ten to 200 points each, at the discretion of the marker; losing mail, 100; failing to reply to official communication, five to 100; working overtime contrary to instructions, ten; failing to register, two. For the carriers there are a number of rules which apply to failure to collect from box, failing to lock box, losing letter box key, delaying delivery of letter, holding mail for a trip changing route. The penalties are from 44 to 500 points.
